Tell Winners Of Keystone Baby Contest

Tiny George Salint, Jr. was acclaimed the fastest baby in the Avalon Carson area last Tuesday when he beat all other entrants hands (and knees) down in the creeper race staged at the Avalon-Sepulveda Park Baby Contest Tuesday afternoon, according to Mrs. Dorothy Kemper, director of the park. In other judgments, Patrick Cobrea had the reddest hair, Kenneth Newland had the most teeth for a baby under one year old, David Eleciri possessed the largest eyes, and Chuckie Curriston had the deepest dimples on display.

Twins Picked
Stephen and Michael Fisk were the most identical twins at the show, and Susan and Sandra Hagedorn were the most unlike set of twins.

Longest and heaviest eyelash award went to Tom Clark, and Steven Zimmerman had the heaviest sprinkling of freckles, Mrs. Kemper reported.

The event was crowned by the naming of the Baby King and Queen. Fabienne Renee Edwards was chosen queen, and Richard Kortcamp received the king's title. More than 100 persons attended the event.

Ping-Pong Games
Results of a ping-pong tournament held on July 17 at the park were announced this week. Top prizes in this competition went to Frank Miller, Phil Evenson, and Porter Hurt, it was disclosed.

Upholstery Class Slated At El Camino

In keeping with its policy of making available to its district new courses as the demand arises, El Camino College is adding upholstery to its curricula this fall, college officials disclosed today. This decision was reached after an extensive survey of the job opportunities in this field revealed that Los Angeles is now second in furniture production in the United States, and many jobs at good wages are now being offered to trained men in this interesting trade, it was disclosed.

Two Classes Daily
Both day and evening classes have been scheduled. Day classes will be offered to young men desiring pre-employment training in upholstery and evening trade extension classes will be held to increase the skill and earning power of those already engaged in the industry.

To instruct these classes, the college has selected Mr. Sumner Power, a journeyman upholsterer with a background of over twenty years of both factory and custom shop upholstery, six years of which he was supervising instructor of upholstery at West Coast University. Many of his former students are employed as journeymen upholsterers, or are conducting their own upholstery business today.

September Registration
Registration for classes in upholstery at El Camino will begin September 15, 1952. Schedules will be available after August 15. Vocational counselors are available to assist those interested in this course.

City Gains Eight Polling Places

Because of the tremendous climb in registered voters in this city, Torrance will have eight more precincts in November's general election than in past elections. City Clerk A. H. Bartlett announced today that there are now 50 precincts in Torrance. Formerly there were only 42.

your family will eat better all year 'round —

another good reason for owning an electric home food freezer!

Appetites are funny—they have no regard for calendars. But the words "out of season" can be dropped from your menu-planning vocabulary when you have an electric home food freezer.

Everything is in season at any season, in a freezer. You can keep the pick of the crop for serving any time the family's appetite calls for it—and it will be field-fresh, as tasty and delicious when you serve it as it was when you stored it away.

Certainly that's one of the benefits you get from owning an electric home food freezer. There are many others, too—all automatically yours with your freezer. So why wait—see your dealer now.
