### British Film Shown to Co-op Nursery Parents

An English film on child psychology was the main feature of the regular monthly business meeting of the Torrance Cooperative Laboratory School. Parents were interested to learn how thinking there parallels that in this country in regard to raising the modern child, it was reported.

Mrs. Dorothy Law, of Compton Counseling Service, will speak to the Parent Education class on Nov. 3 and again on Nov. 10. She was the speaker at one of the earlier meetings and was so well liked by the group that she has been asked to return again, according to Mrs. Bobbie Boulton, press chairman.

Father's Night is scheduled for Nov. 17. This meeting will be especially for fathers of small children, and will give them an opportunity to discuss with the teacher, and other fathers, problems which they have in common. Much help is derived from this group discussion which follows each lecture. These classes are open to the public, free of charge, and meet each Monday evening at Torrance High School Cafeteria.

Plans were made for a Halloween party today for the nursery school children. It was also decided that each child's birthday should be celebrated by the children, since this is such an important occasion to each child, Mrs. Boulton said.

### Build Table Easily with Iron Legs

No longer need the average housewife look with envy at the latest in furniture styles in store windows and mentally weigh the cost against her budget.

It is possible now to bring your home right up to date by using your own ingenuity and with only a small amount of cash.

Latest thing to hit the build-it-yourself market are wrought iron hairpin legs that may be used for creating a limitless number of useful, eye-appealing furniture designs.

Available in various heights, the legs can be used for tables ranging from coffee to lamp to dining. Easily attached to almost any type of wood, including lined oak for the ultra modern home, maple for a colonial interior, or redwood for ranch-type home of the patio, they lend a graceful, distinctive air to any furnishings.

Their versatility is seen in the clever sofa that can be fashioned from them. Fourteen inch legs attached to a small slab-type door (this can be purchased from any lumber dealer), topped by a cushion (or they could be two or three reupholstered cushions salvaged from an old sofa) produces an ultra modern and very comfortable lounge. Gay bolsters added to this completes the piece.

### Boy Scout Troop 219 Celebrates Birthday Today

The 29th birthday of Boy Scout Troop 219 will be celebrated this evening with a party being held at the YWCA at 7:30 p.m. It was announced by Troop Leader C. L. Jones.

Topping the festivities will be the naming of the Most Outstanding Torrance Boy Scout of the Year. A wrist watch, donated by Howard's Jewelers, will go to the Scout named for award. When all merit points are tallied one of the following young men will receive the award: Billy Snyder, Ed Hutchison, Frank Montez, and Paul Thornton.

Trop charter for the coming year will be presented to the company at the party. The troop is sponsored by Torrance Kiwanis Club, according to Jones.

William Walton, Al Moller, and many other local scout officials will be present at the affair, it was reported.
