CAR FOR THE "CHAMP"—Joe Pazandak, familiar to local wrestling fans as the "Champ," gets the low-down on the new Nash automobile he just purchased from Post Avenue Motors, Torrance Nash dealers. Pointing out the features of the 1953 Nash engine is Eddie Circeili (left), service manager for the agency. John Wooten, Post Avenue Motor's sales manager, looks on at the right. The "Champ" reports that this is the second successive year that he has bought a new Nash from the local firm.

Tank to Honor Local War Dead

A monument to honor Torrance's war dead and to be erected in City Park has been adopted as a project of the Torrance Junior Chamber of Commerce according to Dutch Horlander, chairman of the project.

A surplus World War II Army tank has been chosen as the monument and action is being taken through Congressman Cecil R. King to acquire the tank, Horlander reported.

'DRY' CELLS MOIST
Dry cells are no more dry than cold chisels are cold. Chemicals inside dry batteries must remain moist if they are to help produce electricity.

like to make a picnic of washday?

dry clothes right indoors... electrically!

You can walk a lot of miles between your yard and your washer, in the course of a year. But washday needn't be a marathon when you can save every step by having an electric clothes dryer.

Team up your washer with an electric dryer and have practically stepless washdays. It's more than easier—results are better, too. Clothes dried thoroughly by clean electric heat come out soft and fluffy.

Get an electric clothes dryer and stop being a "step-child" on washday. See your dealer now.

Local Gas Office Displays Calcinator

Southern California Gas Co. announced today that a model of the new home garbage disposal unit, the Calcinator, is on display now at the local office of the utilities firm, 1340 Post Ave.

Built around a tiny gas flame, the Calcinator completely disposes of all garbage and combustible refuse by dehydration and combustion, and eliminates endless trips to both garbage pail and incinerator.

This latest in home conveniences has the approval and endorsement of the American Gas Association and the Blue Flame of Approval of the Southern California Gas Co., according to Tenney Gray, sales representative for the gas company.

The Calcinator is sold here exclusively by the Liberty Home Economy Co., 1623 Cravens Ave.

The cabinet of the garbage dispose-all is gleaming white enamel and fashioned in such a way that currents of air heated by the gas flame draw all moisture from waste and garbage. The refuse then burns leaving only a small amount of fine, white ash.

Named for Gods Gods of ancient mythology supply names for days of the week.
