Torrance Known Around The World Officials Says

The expanded advertising program inaugurated this year to make the City of Torrance known throughout the world as a City of Industrial Opportunity, has resulted in reciprocal exchange material from Chambers and trade associations not only in the U. S. but from European countries including some behind the "Iron Curtain."

A review of the material received at the Chamber office indicates that the present printed matter sent out by Torrance, including brochures, maps and directories, are equal if not superior to those used in the various parts of the world, according to Dale Isenberg, executive secretary.

Hundreds of inquiries are handled weekly from practically every State in the Union and at this date the favorite subject for inquiry seems to be questions about petroleum industry, synthetic rubber, steel and aluminum manufacturing. Interest in the Torrance school system is apparent from the recent article in the Wall Street Journal relative to our school building program, Isenberg declared.

The overwhelming popularity of this printed material has practically depleted the present supply and even finer and more descriptive mailing pieces are being designed to reflect the many changes being experienced by unprecedented population, business and industry growth.

The public is again reminded that maps and literature are available to them free of charge for mailing to folks back home. Stop by the Chamber office and get your supply today, the Chamber official added.

Dep. Sheriff Examinations Held Soon

Sheriff E. W. Biscailuz today announced a new examination will soon be held to fill positions as deputy sheriffs in the County of Los Angeles.

"Men will be selected from the list to become deputies with a salary range of \$319 to \$375 a month. After extensive training with full pay in the new Sheriff's Training Academy, they will be assigned to the different branches of law enforcement in the Sheriff's Department," Biscailuz stated.

The examination will include written tests of general mental abilities. Candidates must attain a score of at least 70% in this part of the test to receive a rating

in the remainder of the examination.

While no specific educational requirements have been set down by the Department, completed courses in law enforcement or graduation from an accredited college is desirable.

Strict physical qualifications must be met as well as certain other requirements, Biscailuz concluded.

Further information and applications may be received by writing

or calling the nearest Sheriff's Station which is open day and night, or at the Los Angeles County Civil Service Commission, 501 N. Main St., Los Angeles 12, California.
