

Death . . .

(Continued from Page 1)
 himself prepared to accept it but never kept his appointments.
 Blain's father lives in Spokane, Washington.
 According to Blain's mother-in-law, Mrs. Roxie Hawks, financial rather than marital troubles caused the tragedy.
 Blain had a lot of old debts and this responsibility was constantly preying on his mind, she said.
 "It's hard to believe that something like this will happen in your own family," Mrs. Hawks stated. "You read about it happening to others, and then all of a sudden it hits you. The poor kid—he was really alone. Maybe some day we'll understand these things when we have travelled far enough down the road. We must keep on living for some reason or other—otherwise we wouldn't be here," mused the grief-stricken woman.

Principals . . .

(Continued from Page 1)
 will be Dr. Vernon Sheblak, currently serving as director of the Adult School of Education.
 A new director of Adult Education is to be hired to replace Sheblak.
 C. I. Creelius, now principal of Fern ave. school, will add to his responsibilities the principalship of Greenwood school.
 Raymond Ellerman, currently serving as principal of the Greenwood school, will shift to Madrona Elementary school.
 Herman Shick, principal of Madrona, is leaving the employ of the Torrance district.
 Mrs. Margaret Denmark, principal of the Crenshaw school and the district's only woman principal, will move to North Torrance.
 Donald Robison, principal of North Torrance Elementary school, will help organize the new Evelyn Carr school as its first principal.
 Earl Eckert, now principal of the Seaside school, will move to the Crenshaw school and will serve also as principal of the El Nido Elementary school.
 Lester Foster and Robert Dexter will remain as principals of Perry and Riviera schools, respectively.
 Bruce Wagner, recently appointed to succeed John Steinbaugh as principal of Torrance high school, will continue as head of the district's only high school.
 Dr. Hull stated that no salary changes were made in the reassignment of duties. He indicated that the changes in some cases would be for one year only and that within the next year additional changes in personnel might be made.

He stated that nearly all teachers needed for the coming fall sessions were hired.

Station . . .

(Continued from Page 1)
 in some time when they were called upon to battle the sulfur factory fire. In every instance, the Chief said, the men responded beyond the call of duty. That same readiness is also apparent "when things need fixin' around the house," he stated. "I only have to whisper a wish and it's as good as done."

Hogs . . .

(Continued from Page 1)
 the area might have to go through no actual steps have been taken yet in that direction. The gradual dismantling of the ranches would spread over a period of about five years.
 Foley has already declared to Powell that he will start curtailment measures within the next 90 days. He is moving a lot of his stock and equipment to his ranch in the north. The extent of the curtailment operation was not disclosed.

When asked what, if anything, ought to be done about the hog ranches generally, homeowners made such replies as "live and let live," "let's wait and see," "if the flies and odor leave, let the hogs alone."

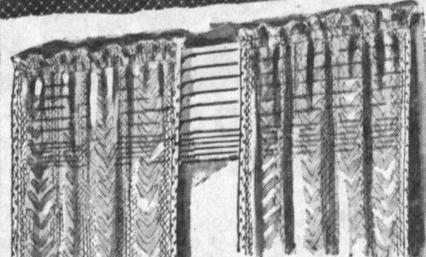

Right-of-Way

"One out of every six violations noted in injury and fatal traffic accidents involves at least one driver who violated the right-of-way law," says B. R. Caldwell, Patrol Commissioner. "With nearly six million vehicles registered in California, problems involving the right-of-way appear quite frequently in an average trip."
