**THIS-A-WAY, THAT-A-WAY, WHICH-A-WAY?** . . . "What's that? The time is to be set BACK one hour Sunday, September 27 at 2 a.m. when we go back on standard time?" . . . Hal Mistle's desperate look is occasioned by the fact that he is in the watch repair department at Lawson's Jewelers and is rather anxious to set the countless clocks correctly on the first try. Of course he knew the right answer all along (he maintains)!

**KNOW YOUR REALTY BOARD**  
 By GRACE HINSHAW

Implicit in the human spirit is the need to climb—from sickness to health, from misery to happiness, from insecurity to security. And when Margaret Burton drove into Long Beach from Oklahoma back in 1939, a widow with two small children and \$1.30 in her purse, the only means she had to climb was a lead on an on-the-job training course in electro-therapy. This proved a wonderful challenge in that she was required to condense the three-month training into a ten-day course. And believe it or not, she met this challenge head-on and became a fine electro-therapist, holding this important job for three years. Margaret is the daughter of an M.D. so no doubt some of her father's interests had paved the way for Margaret's ability to learn her work as a technician.

In searching for satisfying work without too much routine—which

is deadly to many—Margaret has worked as a secretary in a defense plant, and a house mother in a military academy. But not until she had earned her real estate broker's license by night school work did she find work to put her whole heart into. Working with people—and what is more

MRS. MARGARET BURTON

interesting than people?—with each transaction constituting a separate challenge, this was the work for her! With her office being in her home of course she weaves her housework in with her real estate. And she doesn't even object too much when she is called to show a house when in the middle of ironing a blouse!

Margaret was born in Arkansas and schooled in Oklahoma, but California is her favorite site.

Margaret likes to sew. When her children were little she made all their clothes and now she makes most of her own. Decorating her home is also of prime interest when there is time. But the office that Margaret and her husband maintain at 2468 Torrance Blvd. is a busy one and there isn't too much time for hobbies.
