How to make good telephone service even better . . .

You'll spread the news faster if you call by number. When you're making out-of-town calls you'll find that your calls go through faster—twice as fast—if you give the operator the telephone number you want rather than just the name and address. That way, you see, you won't have to wait while she calls "Information" to get the number you're calling. So why not keep a list of out-of-town numbers handy—it's surprising how much time you'll save.

now you can take calls anywhere in the house . . . with handy extension telephones.

No more missing important calls, simply because you were in a distant part of the house and couldn't get to the phone in time. You can enjoy extension telephones now—for just a few pennies a day.
