BRUNCH NETS \$400 FOR FOREIGN STUDENT FUND

Community participation, organization cooperation, and donations from local merchants and individuals were factors responsible for the success of the fund raising "ham brunch" given by the Torrance chapter American Field Service International Scholarship (AFSIS) last Saturday, April 24 at the Torrance YWCA.

Tables were effectively decorated with red, white and blue floral arrangements donated by each of the Torrance florists. Following the brunch the flowers were taken to persons in Torrance who are ill.

"Having no expenses, due to the generous donations, the entire proceeds amounting to about \$400 will be used toward bringing two foreign students to Torrance this fall to spend their senior year of schooling at Torrance high school and live as 'adopted' members of an average American family in two homes in Torrance," stated Mrs. Willard Key and Mrs. J. E. Popovich, ways and means chairmen for AFSIS. "We would like to thank organizations, citizens and especially the local merchants, for the fine cooperation given our chapter during our first fund raising affair."

Helping in preparations and serving were Tri-Hi-Y girls, Judi Reid, Lynn Lorenz, Judy Wright, Norma Quine, Judy Nash, Pat Flanagan, Sandy Sanders, Jean Key, and Doris Popovich, chairman; Hi-Y boys Don

Kaston, Bob Moon and Charlie Babbitt. Cooking and hostessing were Mrs. William Speck, Mrs. Edward Rhone, and chapter committee members Mesdames Key, Popovich, M. M. Schwab, Grover VanDeventer, Dean Sears and Evar Jansson.

Anyone desiring information on the AFSIS may contact any committee member or call Mrs. Schwab, chairman, at Fairfax 8-1391.

On the way: More power for YOUR future!

As an Edison customer, you are a member of one of the nation's fastest growing families. And you are discovering new ways each year to use electricity for comfort and convenience in your home. This combination adds up to the fact that you'll be needing more and more electric power as time goes on—and it is on the way right now!

Edison has spent almost half a billion dollars in the past eight years, and is spending another \$73,000,000 in 1954 to provide additional electricity for the growing needs of Edison customers in Central and Southern California.

Here is another part of our program to provide more electric power for your future. It is our seventh steam-electric generating station. This one, now under construction at El Segundo, is scheduled to begin operation in July, 1955.
