### Painting Stucco

Answers to questions about Nalcrete

Q. What new development has revolutionized the painting of stucco homes?

A. "Dutch Boy's" amazing new polymer paint, Nalcrete.

Q. How does Nalcrete differ from ordinary paints when first applied?

A. Ordinary stucco paint often looks blotchy at first then "weathers" out to a uniform color. But Nalcrete gives a beautiful, uniform color the instant it is dry.

Q. What happens as Nalcrete "ages"?

A. Nalcrete holds its color without fading; washes sparkling clean in hard rains, leaves no dirty streaks. It defies sun, storm and fog, and, most important, it does not react with the alkali present in most masonry surfaces.

Q. Is Nalcrete available in colors as well as white?

A. Yes... in a wide range of colors from the "Dutch Boy" Color Gallery, plus easy intermixes.
