SHOPPING AREAS

(Continued from Page 1) agreed to the need for more commercial zones in Torrance. Percentage-wise, Stevens said, the city's commercial districts are inadequate. There is adequate land for industry and agriculture but it will be necessary to rezone some of this land if the city is to have any retail shopping areas to speak of, Stevens said. "We have homes but no place for business," Councilman Benstead declared in making his proposal.

Les King says It's a Fact
WATER PIPES OR BOILERS DO NOT SWEAT IN WARM WEATHER.
And We Can Prove It!
Water Pipes or Boilers Do Not "Sweat" In Warm Weather!
The drops of water we find on them are due to the moisture in the air. In warm weather, this moisture increases, and coming into contact with the cold pipes, condenses into water. 1 "Popular Fallacies," A. S. E. Ackermann.
