Electricity serves you... wherever you go!

You'd find it hard to list all the ways electricity serves you in your home—and even harder to list the services you get away from home.

Let's take, for instance, where you work. It is safe to say that electricity brings you light for seeing, air-conditioning for comfort, and power for machines which help you do your work more easily.

Today there isn't a store, office or factory which doesn't have at least some of these electrical aids. They're an important part of your electric service—helping to make your living better, every day.

1954 is LIGHT'S DIAMOND-JUBILEE YEAR the 75th birthday of electric light.
