

NHS STUDENTS 'TAKE OVER' COMMUNITY

Extension Of Sewer Protested

Joining a delegation of South Bay Cities officials, Torrance City Attorney James M. Hall lodged a protest with the State Health Department in Berkeley Friday against a Los Angeles plan to extend its Hyperion sewage line further into the bay in order to dump "partly cured" waste from the metropolitan area.

sent Torrance to block the move which has been termed a threat to the Torrance and South Bay beaches. It was pointed out that the measure could cause a recurrence of the beach quarantine which was in effect during the 1940's.

PHOTOGRAPHS

A collection of 15 photographs believed to be the first ever taken of Yosemite Valley has been presented to the library on the Los Angeles campus of the University of California by Carl Dentzel of Northridge, California.

TAKING OVER the post of county supervisor for a day Tuesday was Jerry Coulter, Narbonne High school senior. Coulter occupied County Supervisor Burton W. Chace's seat as part of the annual Boys' Day in Government.

Narbonne High Students Assume Boys' Week Posts

Male students at Narbonne high school assumed important positions in the business and civic life of the community Tuesday during the annual celebration of Boys' Week, according to Principal Earl B. Barnett.

Ten boys traveled to downtown Los Angeles as part of the Boy's Recognition in government program. They included Jerry Coulter in the office of County Supervisor Burton W. Chace, Greg Hornaday, Robert Hargrave, and Toshi Shinden, Superior Court judges; Jack Bourland, executive secretary of the Los Angeles Central Labor Council; Richard Luevano, county health officer; Luke Anthony and Steve Johnson, police captains; and Fred Hartman, and Tom, Sherry, representatives at the sales executive club breakfast.

Taking over various community positions were Gary Robinson California bank manager; Stan Weiss, editor of Lomita

Hog Farms To Go By Oct., '56

A check with local hog farms revealed that they will be closed down by October 1956, in accordance with a deadline set by the city, George Powell, Planning Commission secretary, told the Council Tuesday night.

NHS Senior 'Supervisor For A Day'

County Supervisor Burton W. Chace Tuesday turned over his supervisory duties to 16-year-old Jerry Coulter, Narbonne High school senior who occupied Chace's chair at the meeting of the Board of Supervisors as part of the annual Boys' Day in Government.

Coulter, who resides at 1607 West 216th street, Torrance, attended Tuesday's meeting of the Board of Supervisors with Chace and also was present at a special luncheon that the Supervisors gave to honor the many Los Angeles high school boys who held responsible positions in County government for the day.

Editor in Chief of the Narbonne High School paper, Coulter is also president of the Senior Scholarship Society and is an Ephebian, Chace stated.

Future of Recreation Discussed

A long range view with an eye to integrating school and city recreational facilities, was taken last week when Superintendent J. H. Hull, City Manager George Stevens, Director of Recreation Harry Van Bellehem and the recreation commission met.

Officials discussed what can be done to make the most efficient use of recreational facilities at minimum cost by coordinating the recreational program through contractual agreement.

No definite action was taken at this time.

Three delegates from the Harbor District YWCA attending the 20th National Triennial convention in New York City are Mesdames Arnold Ecklund, president; Elsa Morris, executive director; and Miss Catherine J. Jockett, board member.

COMPLETE CUSTOM UPHOLSTERY SERVICE

Polyethylene will be produced here in Torrance at the plant of Carbide and Carbon Chemicals Company, now under construction.

Farm-fresh to you...

How a remarkable plastic helps bring fresher food to your table

A WONDERFULLY useful plastic called polyethylene* is now giving a new kind of protection to food that is on its way to your kitchen.

WHEN FOOD IS PACKED in thin, strong bags of polyethylene, it is able to "breathe," and yet not dry out. Because polyethylene has this peculiar advantage, apples, carrots, and other fruits and vegetables—as well as poultry and meat products—can reach your table more nearly farm-fresh than ever.

POLYETHYLENE IS ONLY ONE of a number of plastics produced by the people of Union Carbide to help bring foods to you in prime condition. Some of these plastics coat cardboard for milk cartons and frozen food packages, while others line the tins for canned foods and beverages.

SCIENCE "SETS A GOOD TABLE" These and other materials produced by UCC help protect food while growing, in storage, during preparation, when packaged for your use, and when stored in your pantry or refrigerator. This protection helps provide a more healthful diet for all Americans.

FREE! Learn how ALLOYS, CARBONS, CASES, CHEMICALS, and PLASTICS improve many things that you use. Ask for "Products and Processes" booklet A.
