Dr. Daniel Colin Munro, M.D., says:

"I have never seen a case where a long series of enemas or irrigation failed to improve later bowel activity. I believe that the chief value of this therapy, however, is not in simply emptying the colon, but in cleansing degenerated and infected areas in the bowel wall, which are more or less common to adults, areas through which infection and toxins enter the lymphatics and blood stream, carrying disease to our heart, liver, kidneys and other organs."

**Alcha Luncheon Compliments  
Faculty of Perry School**

The teachers' room at Perry school became the "Royal Hawaiian" room with a luau theme cleverly carried out for the decorations when the executive board of the Perry P-TA complimented the faculty of the school with an Aloha luncheon on June 14.

Tropical fruit and garlands of gay-colored flowers formed the table centerpieces, with scattered sea shells among the arrangement adding a further island touch. At the head table pineapples and coconuts surrounded a centerpiece composed of a native straw hat interwoven with hibiscus laid on a bamboo mat.

Hawaiian music played softly in the background as Mrs. Kenneth McVey dressed in original island attire, acted as hostess and presented each guest with the traditional lei.

Chairman of the luncheon was Mrs. John Arensmeyer, retiring president, assisted by Mmes. T. R. Jackson, D. D. Kern, E. C. Carlstrom, C. L. Thompson, and McVey. The menu, in keeping with the island theme, was prepared by the entire P-TA board.

Highlight of the luncheon was the presentation of a gift to Lester Foster by the faculty. Foster in turn, expressed appreciation in behalf of the entire faculty, for the outstanding work of the executive board for the past year.
