

Editor, Torrance Press.
TO ALL CITIZENS IN THE
LOS ANGELES BASIN:

Smog is a community problem.
It arises from the activities
of each of us—5,000,000 people
and their more than 15,000 in-

dustries, 2,500,000 motor ve-
hicles and more than 1,500,000
incinerators.
Each of us helps to make
smog and each of us can fight
smog.

Each evening the local press,
radio, and television will be
given forecasts of smog condi-
tions. One of two conditions
will be forecast:
SMOG GREEN: No emer-
gency action is expected.
SMOG RED: Heavy smog

forecast. (Your help needed).
When SMOG RED is fore-
cast, every civic-minded resi-
dent is asked to take these four
steps:

1. Share your automobile with your neighbors or co-workers, (four persons per car will reduce automobile exhaust pollution by 75 per cent!)-or use public transportation when available. DON'T BE A LONE DRIVER.
2. Don't use your automobiles

for errands which can be post-
poned. Every automobile which
can be kept off our highways
each day means one less pound
of pollution in our overcrowded
air.
3. Do not burn refuse until
favorable conditions are fore-
cast. (SMOG GREEN).
4. Business, industry, and mu-
nicipal organizations are re-
quested to reduce the use of
their motor vehicles to a mini-
mum, to limit their air-pollut-

ing operation in every way pos-
sible, and to encourage their
employees to participate fully in
the steps outlined above.
Until effective controls are
developed for automobile ex-
haust and until collections for
refuse can be established, the
steps stated above will def-
initely reduce smog-forming
pollutants. BEFORE they can

become acute.
To become effective, these
emergency measures must be
accepted by all of us. When
more permanent remedies are
available, you will be promptly
informed.
