Christmas Mailing Tips Issued By Postmaster

Postmaster Clara A. Conner announced today that there has been a steady increase in the flow of Christmas cards and packages through the Post Office the past few days. She said she was glad to see that many people are getting their Christmas gifts for distant points into the mail this week pointing out that packages addressed to folks living in other states should all be mailed before December 5 and those for nearby points before December 10.

Stressing the need for everyone to cooperate on his 1955 "Mail Early for Christmas" campaign, Postmaster Conner says that by following these three simple rules, you're certain to have your gifts delivered before Christmas Day; Wrap them securely, address them correctly, and mail them early.

"Of course early mailing of all Christmas cards and gifts is a big factor in getting everything delivered before Christmas," she went on to say. "Keep in mind that careful packing and correct addressing is equally important. Every year many poorly wrapped packages break open despite careful handling and we often have to puzzle over addresses which are incomplete or simply cannot be read at all."

Advance care in preparing gift packages for the mails and making sure that all addresses are legible and complete will prevent disappointment to sender and receiver alike.

Check First

"If you have any articles of unusual size or bulk, better check with the Post Office before attempting to mail them," the postmaster warns. "The limits on size and weight of packages varies, depending on where you mail your package from."

Some post offices cannot accept packages that are more than 72 inches in combined length and girth, nor more than 20 pounds in weight. In others, the limits go up to 100 inches in combined length and girth and 70 pounds in weight.

It is always better to use corrugated cartons for shipping your gifts especially where there are a number of various sized objects. Use plenty of wadded tissue or newspaper in the cartons for extra protection against shock. Complete each

package by wrapping in heavy paper and tying it with strong cord.

Extra Precaution

As extra precaution against loss, Postmaster Conner advised placing both your return address and the recipient's address inside the carton or package before it is wrapped.

Don't seal your parcel unless you include a notice reading "Contents merchandise - may be opened for postal inspection" along with your return address and the recipient's address on the mailing label.

If you use Christmas stickers or seals put them on the back of your Christmas cards and packages so that they will not conflict with the address on the front. Before you release your packages be sure that proper postage is firmly affixed to each and it's a good idea to place a piece of transparent cellophane tape over the address portion of the label to prevent defacing it in transit. Make sure, of course, to include the recipient's full name, street address, city, zone and state.
