

**FAMILY EDUCATION** and order are some of the chief means of grace; if these are duly maintained, all the means of grace are likely to prosper and become effectual.—Jonathan Edwards.

### Mailboxes Now Really 'Patriotic'

A total of 101 new red-white-blue mailboxes has been added to the 164 mailboxes scattered throughout Torrance. Mrs. Clara A. Conner, postmaster, announced this week.

The patriotic-looking receptacles constitute a "new look" authorized by the Post Office Department on a national basis. All boxes will be painted red-white-and-blue eventually, Mrs. Conner stated.

**DOING IT THE HARD WAY** . . . Kathy Lettin may be impressed with Larry Reed's valiant efforts to make his own ice cream, but she isn't taking any chances. The youngsters are students in Miss Marilyn Armando's second grade

class at Carr elementary. The old-fashioned freezer is part of the latest equipment used to teach about dairies and related subjects. Much reading, vocabulary-building, and research is involved.—Press Photo.

**\$200 LESS** than Ford, Chevy, Plymouth  
Twin Pontiac can afford to take dealer others turn down. We're smallest showroom, finest ads, lowest overhead. It costs us less to do business, that's why our cars cost you less. Cash or terms.

### Williams New Owner Of Lumber Co.

Harry T. Williams, in the lumber business in Santa Monica since 1920, has purchased the Torrance Lumber company, and will feature "Do It Yourself Materials," hardware, lumber, fencing, insulation, plywood, and sundries.

Williams has been active in civic affairs in Santa Monica, having been a member of the Board of Education, the Personnel Board of the City of Santa Monica, and is at present on the Personnel Commission of the Board of Education.

Williams is a past president of the Optimist club of Santa Monica, and of the Bay Builders Exchange. He is at present on the Board of Directors of the Builders Exchange.

However, he is resigning from all of his activities in Santa Monica, as he and Mrs. Williams, who is also associated with him in the lumber business, are moving their residence from there, as of May 1, to this vicinity.

**WHEN AT table**, remember that we never regret of having eaten or drunk too little.—Thomas Jefferson.

### Area Employers' Council Names 4 New Directors

Four new directors of the Harbor Area Employers' council were elected at the annual membership meeting of the organization held in Hotel Hacienda, San Pedro. They are: John D. Carter, Modern Food Market, Wilmington; Paul Diamond, the Gay Shop, Torrance; Tom Hinkley, Hinkley's Market, Lomita and Ernest Ross, of Ross Women's Wear, Gardena.

Re-elected to the board of directors were Louis Arbetter, Torrance; Clyde H. Dunlap Jr., San Pedro; J. A. Eichorn, San Pedro; Sam Levy, Torrance; A. J. Moe, San Pedro; Frank R. Moore, Laguna Beach; C. L. Prow, Los Angeles and Wayne N. Springer, Gardena.

Hold-over directors are: J. C. Caldwell, Wilmington; W. O. Clausing, Wilmington; Arthur Cooper, San Pedro; Carl C. Duncan, Torrance; A. A. Fellers, San Pedro; Norman Horwitz, Gardena; A. J. McCown, South Pasadena; H. P. Osborne Jr., Lomita; H. E. Petro, Torrance; H. W. Smith, San Pedro; E. W. Spear, Wilmington; James Squire, Torrance, and Ken Unmacht, San Pedro.

**Ex Officio**  
Elected to the new honorary position of ex-officio member of the board of directors were Harry M. Carr, San Pedro, one of the founders of the council, and its secretary-treasurer since

### TWO-TON FORGINGS PLANNED

Aluminum "boy hand forgings weighing as much as two tons will soon be in production from Harvey Aluminum's new forging facility. The massive hand forgings will be produced on huge hydraulic forging presses that Harvey is currently installing at the Torrance plant.

"Aluminum alloy hand forgings from these new presses will satisfy the most extended weight, dimensional, and metallurgical requirements anticipated by airframe and commercial manufacturers," stated Lawrence A. Harvey, executive vice-president.

In order to produce these giant hand forgings, Harvey Aluminum is setting up a special operation in the ingot plant and installing new direct chill casting equipment designed to cast ingot to a diameter 32" or more.

Hand forgings are used as a source of readily available material from which parts can be machined for prototype and other development projects when the number of pieces required is small and the time available or the uncertainty of design makes it impractical to construct forging dies.

Hand forged aluminum shapes that can be produced by Harvey in a complete range of sizes include square, biscuit, rectangle, cylinder, slab, ring, Tee, and parts with steps, tapers, lugs, and bosses.

# PERFORMANCE made it the Largest Selling "8" in the World...

## the FORD V-8

Just look at these official registration figures for the first 11 months—January through November, 1955

	Car Sales	Ford Sales Leadership
FORD V-8	1,241,742	.....
Car C—V-8	634,376	.....607,366
Car P—V-8	262,870	.....978,872
Car C—Six	845,153	.....396,589
Car P—Six	334,540	.....907,202

### Here's why!

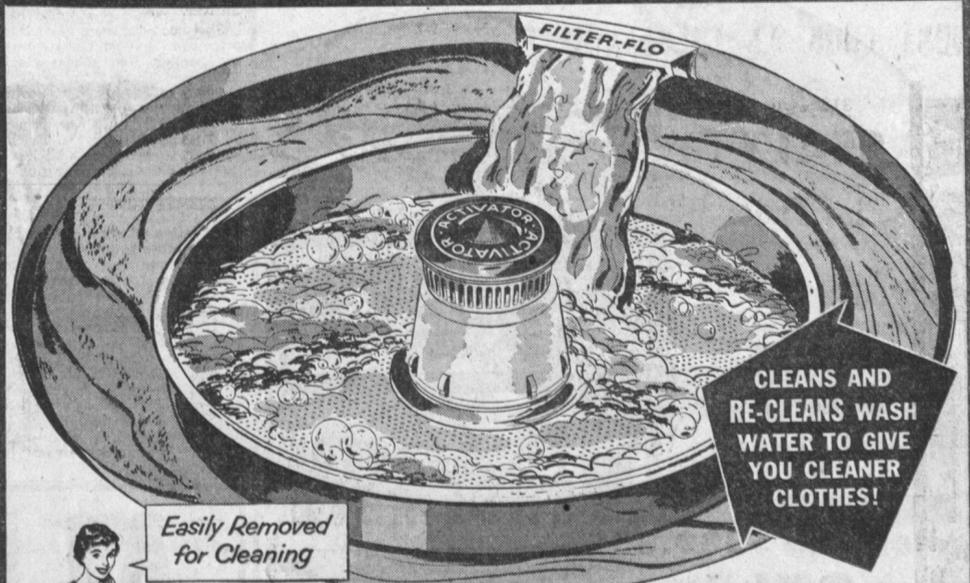

People just naturally go for 8 cylinders in the FORD package! And to a world record extent! Just think, in the first 11 months of 1955 alone, 344,496 more people bought Ford V-8's than the two other low-priced competitive eights combined! Of course, the reason the Ford V-8 is the largest selling eight-cylinder car in the world is that more people like its

brand of performance—the kind that comes with the car! These people aren't amateurs in judging engines. Nearly 24 years of building Ford V-8's to supply their demand is convincing proof of that. And the Ford V-8 of today is the best yet . . . by a country mile! Smoother and quieter—you can scarcely hear it, even with the hood up!

Sassier—just ask the highway patrol officer who drives one. He knows it takes a Ford to catch a Ford! And, for the very practical question of durability—ask a Ford cab driver. He knows how Fords take it days on end. So, if it's performance that you want—and wrapped like a gift—the '56 Ford V-8 is your baby. Come in . . . try it today!

### New, 1956 General Electric FILTER-FLO Washer

Removes Lint, Sand and Soap Scum  
**HOW THE G-E FILTER-FLO WASHER WORKS**  
This new General Electric Washer circulates and filters your wash water at the rate of six gallons per minute—to give you whiter, brighter clothes. As the Filter-Flo Washing System circulates the water, sand settles out the bottom of washbasket, soap scum floats away, lint is trapped in the filter.

**BIG CAPACITY, TOO!**  
This new G-E has over 50% more clothes capacity than many other automatics. No need to split a big wash into two separate loads. Plus Water Saver Control for small loads.
