Supervisor Announces Office Hours

Supervisor Kenneth Hahn announced this week that he is continuing his policy of having district office hours on Thursday afternoons as a convenience for the people of Inglewood, Lennox, and Lawndale.

"These district offices will continue to be open to serve the people and to make it unnecessary for them to make the long trip down to the civic center to handle routine matters," Supervisor Hahn said.

His district offices will be open on Thursday afternoons, from 2 to 4 p.m., on the following schedule:

First Thursday of each month, Inglewood city hall.

Second Thursday, Lennox

Sets Special Phone Rules

"The California Highway Patrol emergency telephone number, 'ZEnith 1-2000', is for traffic emergencies only."

This statement was reiterated today by Patrol Commissioner B. R. Caldwell in an effort to curtail non-emergency calls being made over the Patrol's emergency line.

"Frequently non-emergency calls block the emergency lines while true traffic emergencies wait," Caldwell declared. "Many times the non-emergency calls are made over the Patrol's emergency line."

Third Thursday, Lawndale fire station, 4312 West 147th street.

PRINCIPLE IS a passion for truth and right.—Hazlitt.

SKYRAIDER FUSELAGE ARRIVES

The first fuselage for the new AD-7 Skyraider has arrived at Douglas-Torrance from Interstate Engineering Corporation at El Segundo as production gets underway on this latest version of the Navy's famed Skyraider series.

Approximately 3,000 of these carrier based attack bombers have been built since 1946 along what has been termed a "thousand mile production line" extending from Torrance and El Segundo to Reno, Nevada; and Fresno, Hayward and Burbank, California.

Assemblies for the latest Skyraider are manufactured by subcontractors and delivered to both facilities of the El Segundo Division.

Torrance receives the fuselage and center wing sections where they are joined together and all installation work completed. They are taken next to El Segundo for final assembly.

In outward appearance, the AD-7 resembles the AD-6, however, its new equipment and performance are considerably improved.

Deliveries to the fleet are expected to begin in August of this year.
