In the various elementary school districts of the city.

Mrs. W. E. Inman will serve the Hillside school area; Mrs. George Powell, Walteria; Mrs. J. M. Ogborn, Riviera; Mrs. Janie Scott, Meadow Park; Mrs. Evelyn Wudske, Seaside; Mrs. Grant P. McLaren, Fern Greenwood; Mrs. W. H. Burrows, Madrona.

Mrs. William Dixon will be chairman of the Wood School area; Mrs. Perkins, Carr; Mrs. Eugene Phillips, Perry; Mrs. Betty Mann, Steele; Mrs. L. Francois, El Nido; Mrs. Myrtle Van Deventer, North Torrance; and Mrs. W. H. Brinkley, Crenshaw.

All of these chairmen need the assistance of neighbors in their area to conduct the one day campaign, Richland emphasized.

Heart Sunday will be a day of emphasis in the month long February Heart Fund campaign, at which time every resident will have an opportunity to hear "The Story of Heart" from one of his neighbors and to learn what is being done locally to attack the problem of heart and circulatory diseases.

### One Out Of Two

Richland said that one out of two persons now living will die of some form of heart disease.

"Research scientists are seeking the causes of high blood pressure, coronary artery disease, and hardening of the arteries, which are the causes of 90 per cent of all heart deaths."

"These diseases strike old and young alike, and recent statistics show an alarming increase of heart deaths among persons under the age of 50," Richland added.

### Identification

The volunteer will wear a badge of identification when calling on neighbors on Heart Sunday, and will carry the Department of Social Service card authorizing him to receive funds for the Heart association.

The Heart Fund campaign is the annual fund-raising effort of the Los Angeles County Heart Association, which also receives funds throughout the year from memorial gifts, wills and bequests.

These funds support local research, professional and public education projects, and other program activities designed to

## THE DENTIST SAYS:

ERNEST J. TARR, D.D.S.

PLACE DENTURES IMMEDIATELY AFTER EXTRACTION

Question—"What is an immediate denture?" asks Mrs. L. R. of Gardena.

Answer—An immediate denture is one where the remaining natural teeth are removed and the denture is placed directly in the mouth, so the patient does not have to go without teeth.

Usually the front teeth are left. Then when the denture is ready, these teeth are extracted and the denture inserted.

As the gums heal, the denture will gradually loosen up and sore spots may develop as the denture continues to settle. If the denture becomes too loose, your dentist may recommend some form of adhesive to help you until the is so great that the bite has been changed, the dentures may have to be remade.

Gums are completely healed. The denture can then be refitted, or in cases where the change
