PANSIES. ADD COLOR AND WARMTH TO GARDEN

By LEWIS LORING
Pansies are the leading bedding plant in California according to the nurseryman of this state and are extremely popular, with young and old, in this area as well. There are many reasons for this high degree of popularity that the pansy has earned.
At this time of the year one of the most important reasons is apparent when we see the beautiful shining faces of some freshly dug field-grown types. These plants have been grown by the thousands in a field and brought in to your nursery and garden supply dealer as freshly dug plants when they first enter the blooming stage. Flat-grown plants are also available at this time. These differ from the field-grown types in that they have spent their days in flats instead of open ground.
The main contribution of these pansies to the garden is quick

Dominguez Channel Cleaned Up

Maintenance crews have now finished a clean-up operation on Dominguez channel between Crenshaw boulevard and Western avenue, having removed five two and one-half ton truckloads of debris and trash deposited by the January storm. Supervisor Kenneth Hahn reported this week.

Pilings of an old bridge in the channel about 1000 yards north of Arlington avenue have also been torn down to prevent trash and debris from being caught against the pilings during rains.

This work has been done at the request of Supervisor Hahn as a measure to increase the effectiveness of the channel.

Flood control officials have also assured Supervisor Hahn that they will maintain a weekly inspection of the channel to prevent additional trash and debris from collecting.

DO YOU NEED extra cash? Silly question, but did you ever think of selling your old stove or the children's discarded bicycle? Try the Torrance Press classified ads and get that extra cash through the results you'll receive.

CASH! JOBS! SALES! They are all listed in the Torrance Press Classified Section. The section where results pay off!
