

Republican Committee Organizes

The Candidates Committee for the Sixty-eighth Assembly District, formed to select and endorse a Republican candidate for the state assembly to run in the June primary election, has formally organized according to

rules set down by the Republican Central Committee of Los Angeles county.

Meeting Monday night at 1731 Border avenue, Torrance, the committee, made up of members of the Republican Central Committee from the Sixty-eighth district, and their alternates, as well as representatives of volunteer Republican organizations from the district, elected Frank S. The Candidates Committee will meet next Tuesday night, March 20, at 8 o'clock in the conference room at 1731 Border avenue, Torrance, to interview candidates and possibly to endorse one.

"The committee urges any person who is interested in serving his state and community in the California legislature and who is willing to become a candidate for the state assembly to attend this meet-

ing," Selover said. "The endorsed candidate will receive all assistance possible in his campaign, since this is the purpose of the pre-primary endorsement procedure." Other Republican Central Committee members in the Sixty-eighth district are, Stephen M. Cope, Wilmington; Dwayne O. Larson, Wilmington; Mrs. Jean W. Haley, Clifton Hix and Charles Soderstrom Jr., San Pedro, and William H. Tolson, Torrance.

Supervisor Announces 2 New Signals

Plans and specifications for the installation of fully-actuated traffic control signals at two dangerous intersections in the Dominguez-Carson area were approved yesterday by County Supervisor Burton W. Chace.

One of the safety devices is to be installed at the intersection of Wilmington ave. at Del Amo Blvd., where a hazardous condition exists when home-bound motors on Del Amo Blvd. attempt to negotiate fast-moving traffic on Wilmington ave.

The other traffic signal is to be installed at Normandie ave. and Sepulveda Blvd., where a large number of serious traffic accidents have occurred during the past twelve months.

Immediately after approving the plans, the supervisor called for competitive bids for doing the work.

Chace also approved an appropriation of \$1500 for the channelization of traffic at the intersection of Palos Verdes drive South and Palos Verdes drive East with asphaltic concrete bars.
