INDIANAPOLIS—where super racers have won with Mobil racing fuels 9 out of 10 times since 1947.

BONNEVILLE SALT FLATS—in '47 John Cobb raced a record 403 mph using Mobil products.

BLUEBIRD—Donald Campbell's new jet-propelled racer set new record on water (216.2 mph) in '55 with Mobil products.

MOBILGAS ECONOMY RUN—in grueling '56 Run, stock cars got flashing performance—averaged 19.9 miles per gallon.

How we learned to make 1956 Mobilgas Special

For years we've mixed "hot" fuels for nearly every major engine competition in the world—on land, sea, air. You name the record—Mobilgas know-how has helped set it. That's how we learned to meet the demands of today's high-compression passenger car engines... that their fuel must be specially refined to get

every ounce of high energy elements for smooth knock-free getaway, top speed... that formula MC4 additives help make gasoline burn better, smooth out engines, boost mileage. Result: with Mobilgas Special your high-compression engine gives you everything it's got, for there's a torrent of quiet power in your fuel tank.
