**New, 1956 General Electric
FILTER-FLO Washer**
Removes Lint, Sand and Soap Scum

HOW THE G-E FILTER-FLO WASHER WORKS

This new General Electric Washer circulates and filters
your wash water at the rate of six gallons per minute—to
give you whiter, brighter clothes.

As the Filter-Flo Washing System circulates the water,
sand settles out the bottom of washbasket, soap scum floats
away, lint is trapped in the filter.

BIG CAPACITY, TOO!

This new G-E has over 50% more clothes capacity than many
other automatics. No need to split a big wash into two sepa-
rate loads. Plus Water Saver Control for small loads.

DISPOSAL

FULLY GUARANTEED!

The modern electrical way to
get rid of food waste before
it becomes garbage. No more
messy sinks, drippy bags, or trips
to the garbage cans.

Ideal for septic tanks, too.
