

Employees of School Set Blood Bank

The employees of the Torrance Unified School district have recently established a blood bank through the Red Cross Bloodmobile.

Recently employees of the Torrance School district contributed blood to the Red Cross Blood Bank.

Enough donors contributed to form a blood bank for school district employees.

Because of this, any employee of the school district may draw upon the bank regardless of whether he has contributed or not.

On Monday, June 11, school employees will have an opportunity to replenish and supplement their bank when the Red Cross Bloodmobile opens in the civic auditorium.

Arthur O. Otsea (l), new 1956-57 Harbor Area Community Chest campaign chairman briefs other top leaders: Charles C. Morgan, and Donald Armstrong. Phillips Photo.

Morgan And Armstrong Join Otsea In Campaign

Harbor Community Chest volunteer leaders already are preparing for the fall Chest cam-

aign, in line with the year-around planning and action necessary for the Los Angeles Area's biggest fund-raising project (60,000 volunteer fund-raisers, 750,000 people served, over \$9 million raised last year.)

Newly named Harbor Area chairman Arthur O. Otsea this week announced recruitment of commerce and industry chairman, Charles C. Morgan; and advance gifts chairman, Donald Armstrong.

Morgan is general superintendent of the Columbia-Geneva Steel division of the U. S. Steel Corp., a member of the board of branch managers of the Torrance YMCA and a director of the Merchants and Manufacturers association of Los Angeles.

He is also active in the industrial section of the Torrance Chamber of Commerce and is a member of the Association of Iron and Steel Engineers and the American Iron and Steel Institute.

Armstrong is a member of the boards of directors of the Torrance Chamber of Commerce, the Torrance Memorial hospital and the Torrance YMCA. He served the Community Chest as Torrance City chairman in 1952-53 and as chairman of Palos Verdes Estates the year previously.

NTCIA Will Select Queen Candidate

North Torrance Civic Improvement association is again actively working as one of the service clubs to promote good will and greater community interest in the Torrance Community Fair, L. H. Holcomb said.

Plans have been made to select a queen candidate to represent the North Torrance area. The program for ticket sales is already well under way spear-headed by Mrs. Bonnie Nobbe, ways and means chairman. Next general meeting of N.T.C.I.A. will be held June 7, at 8 p.m., at McMaster hall, 3624 W. 174th st. All residents of North Torrance who are interested in the betterment of the community are welcome to attend. Refreshments will be served following the meeting.

THE BANKS WHERE STEEL BANKS in hundreds of cities across U.S.A.

PAY THE ORDER OF Our Employees \$195,000,000.00

One hundred ninety-five million and no/100 DOLLARS

The Steel Companies

Steel writes a pay check like this twice a month

That's a big check.

Most pay days it's even bigger. Some pay days it may be a little less. But in 1955, for instance, the total paid out for employment costs in the steel industry and its affiliated interests was almost 4.7 billion dollars.

About 90 per cent of that was paid directly to employees and the rest was set aside for their pensions, insurance and other benefits.

The 4.7 billion dollars was an average of \$5,800 per year per employee.

And the steel companies, in 1955, wrote another series of checks that totalled more than 6 billion dollars for the materials and services needed to keep the steelworkers employed.

Any way you figure it, close to 11 billions of dollars from the steel companies alone, went directly to the workers or was paid out for materials.

Thus, wages and materials alone accounted for close to 11 billions of the total 14 billions received by the steel companies from sales, services and all other sources. As the chart at the right shows, this was 77.1 per cent of every dollar taken in.

Then, with what was left over, the steel companies had to pay taxes and interest and allow for depreciation costs before any money was available for expansion, reinvestment in the business or dividends.

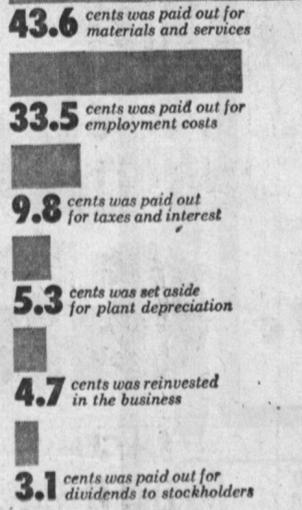

Meanwhile the country's needs for steel increase daily. To meet this need the steel companies are expanding their production capacity to increase it 15 million tons in just three years. This will cost more than a billion dollars this year alone. Expansion will mean more jobs, bigger payrolls.

It all leads unerringly to one conclusion—

America and Steel Must Grow Together

Out of each dollar Steel took in, in 1955, from sales, services and investments . . .
