

### YWCA Shows Council P-TA Island Films

Come to Hawaii with the YWCA on Friday, June 29 at 8 p.m. when Stan Sinclair of Matson Steamship company will show "Hawaiian Hospitality," a beautiful color film of the Islands.

Preceding this, an outdoor potluck supper will be held at 6:30 p.m., to which everyone is invited.

This is the first in a series of family nights to be held this summer at the YWCA, 2320 Carson street. There will be no admission charge. Everyone attending will be asked to bring something for the supper.

Reservations must be made in advance of June 27.

### Council P-TA Workshop

Mrs. C. N. Peterson, first vice-president, Gardena-Wilmington council PTA, held a program workshop recently for all new program chairmen and those interested in programming for the coming year. Many interesting ideas were exchanged and those attending left full of enthusiasm. Present were Dominguez: Mesdames G. E. Garlow, president, Joseph Pugleec, first vice-president; Catskill: Mesdames Louis Scheer, president, Harold Sullivan, first vice-president; Chapman; Mrs. Gordon Lewis; Amestoy: Mrs. Dallas Oylear, first vice-president; Carson: Mesdames William Roller, president, A. S. Borben, Lloyd Rowe, first vice-president; 156th Street: Mesdames A. J. Blake, president, Ray Hensley, first vice-president; 232nd Pl.: Mrs. A. N. Latta, first vice-president; Delores: Mesdames Chas. Turner, president, Oscar Smith, first vice-president; Gardena-Elementary: Mrs. D. C. Snook, first vice-president; Fries: Mrs. Harry Peterson, first vice-president; Gulf: Mrs. Frank Gilbert, first vice-president; Towne: Mesdames Richard Crawford, president, John Brohamer, first vice-president; 186th Street: Mrs. Guy Sels, first vice-president; Hawaian: Mrs. E. G. Croom, first vice-president; Delores: Mrs. Haru Fujimoto.

### Coleus Provides Color In Cool Parts of Garden

By LEWIS LORING

A plant that I use widely for continuing source of color in the cool shady parts of a garden, is the coleus. Too many times we overlook the possibilities of this lovely plant.

### HALLDALE OFFICERS INSTALLED

Using a rainbow jewel theme, Mrs. E. M. Bernardin, first vice president of Gateway Council PTA, installed the new officers of Halldale PTA at the final meeting of the year. She was assisted by Mrs. John H. Del-signe.

As each officer assumed her position she was presented with a beautiful earring corsage, which represented a certain color that symbolized the challenge that each position held.

Invested were Mmes. E. N. Reese, president; Louis Funk, first vice president; Guy Adams, second vice president; Judson Bowers, financial secretary; F. E. Dye, corresponding secretary; Frank Bowling, treasurer; Wm. H. Dunston, historian; W. L. Harvey, parliamentarian.

Mmes. E. R. Alves and Bill Overstreet were re-installed to second terms as recording secretary and auditor, respectively. Mrs. Frank Bowling was in charge of the program which featured students of rooms 1 and 2. The group sang several selections under Mary Halver-son's direction.

Honoring the faculty for their work during the last year, the PTA board prepared and served a turkey dinner recently in the auditorium. Enjoying the affair were school personnel and PTA board members.

Mrs. David Goolsby, out-going president entertained her executive board and chairmen at a luncheon recently in her home. William Walton, principal, also thanked the board for making the year a pleasant and profitable one.

At the conclusion of the meeting an automatic toaster was presented to Mrs. Goolsby by the Board. Mrs. Goolsby in turn presented each member with a remembrance. Principal Walton also received a gift.

### YWCA Conference

Five girls representing the Harbor Area YWCA will attend Junior High Conference, June 26 to July 2 at Camp Tehquitz Meadows.

Those attending will be: Barbara Gray, Mary Stone, Julie Bursley, Nancy Titchener, Lyla Mellor.

It will stand some sun, but is at its best along with other shade loving plants such as ferns, begonias, fuchsias, azaleas and camellias. The colors seem to be nicer under these cool conditions, and the plant does not dry out.

The beauty of this plant is in its leaves. There are countless color combinations of red, purple, yellow and green and soft shadings thereof. The plant is perennial, but is tender to frost. The cultural conditions are similar to the other, mentioned above—a loose friable soil, abundant plant food and moisture.

Often times if the plant is allowed to grow unchecked it becomes leggy. You can overcome this by pinching back occasionally and not allowing the plant to flower. The pale lavender or blue flowers are seldom spectacular.

The coleus lends itself to many uses. It can be used as a bedding plant, or in mass effects. A fine growing specimen is hard to beat as a small accent plant. It is useful as a pot or tub plant, and many times can be effectively used in window or porch boxes.

Keep a sharp look out for snails and slugs for they too love this cool moist condition that the coleus finds so desirable.

### Lutheran Church Receives Members

In a special service on Sunday, Christ The King Lutheran church will receive 35 new charter members. At the worship service which begins at 10:45 a.m. there will also be a class of adults confirmed by the Rev. Maynard Midthun, pastor of the church. The membership of this congregation, which was organized on April 15, is now 235.

Sunday school and worship are being held at the Crenshaw school, 18620 Crenshaw, Edard Davies of Pasadena has been engaged as the architect and final plans for the chapel and education unit will be presented to the congregation the last part of July.

Let Torrance Press classified ads do your work for you. Call FA. 8-2345.

### New Camp Fire Girls Group Forms

A newly-formed group of Camp Fire Girls had their fly-up ceremony Wednesday night, June 13, at the home of Mrs. Virginia Kern, 18211 Prairie, Torrance.

The group of nine and ten-year-old girls, most of whom were formerly members of the Bonnie Blue Birds under the leadership of Mrs. Jane Shoekley of Torrance, includes: Evelyn Edwards, Gwen Glen, Linda Kern, Leslie Lightner, Vickie Thompson, Peggy Taylor, Sherry Whitlow, Laura Yezzer, Anne Yokoyama, Janet White, Carol Ellis, Lynda Barber, and Jewel Hartle.

The ceremony included, among other things, the repeating of the Camp Fire Desire, and signing of same, by each girl; presentation of scarves and the slides by the Blue Birds; presentation of Camp Fire manuals and pins by the mothers and fathers, and presentation of certificates.

A highlight of the evening was a Rainbow Fire Ceremony conducted by a visiting group, the Tanka Tandl Camp Fire Girls, wherein the seven crafts and the four ranks are explained and illustrated by means of colored fire (pine cones impregnated with chemicals produce the required colors).

Miss Cynthia Keyes, Harbor District Executive, was guest speaker, welcoming the girls to Camp Fire.

The girls have chosen "Okid-yapa Winuke" (which means "helping each other to grow to be something") as their group name. The guardians of the group are Mrs. Virginia Kern, of Torrance, and Mrs. Francis White, of Hermosa Beach.

### "Origin" Topic

The First Church of Christ, Scientist, 218th street at Manuel avenue, will conduct its Sunday service at 11 a.m. The discovery of Christian Science, its Scriptural origin, tenets, and teachings will be discussed at that time.

The Golden Text of the sermon is quoted from Revelation (12:10), "Now is come salvation, and strength, and the kingdom of our God, and the power of his Christ."

## To save a life

Portable packages of electricity help make our lives safer and more enjoyable

THE BRIGHT BEAM of a flashlight in the hands of an airman down at sea... the untold comfort of an almost invisible hearing aid... the pleasure of listening to your favorite music over a portable radio.

THESE INGENUOUS DEVICES have one thing in common—they all get their electric power from dry-cell batteries. Each day millions of us depend on these portable packages of power for greater safety, comfort, and pleasure.

LARGE BATTERIES furnish power for signalling and communications systems. Hearing aid batteries are now so tiny that they can hide under a dime. Other dry-cells supply power to everything from toys to Geiger counters.

OVER 60 YEARS AGO, the people of Union Carbide produced the first commercial dry-cell. From this be-

ginning, they developed the great variety of EVEREADY batteries that now serve dependably in so many applications.

SCIENTISTS of Union Carbide are constantly working on new, improved methods of producing packaged power. Their goal is to make dry-cell batteries do even more work for all of us.
