Vocational Occupational Survey To Be Conducted
The Torrance Chamber of Commerce will sponsor jointly with the Torrance Unified School district a vocational occupational survey to be conducted by students in a work experience course.
Major purposes of the survey are: collect information necessary to gear the educational program more nearly to the community's occupational needs and employment opportunities; improve in general the educational and vocational guidance services of the local schools.
The Chamber will encourage business and industry to participate. Directors believe employers will benefit from increased competence of the trainees in the various businesses.

Airport...
(Continued From Page 1)
Aviation Safety District office in Long Beach.
"Peak periods have caused an unsafe condition involving pilots competing for positions in the traffic pattern," Allen said.
He recommended that the airport provide a touch-and-go strip for novice aviators at the northwest section of the airport.
A master plan concerning the development of the whole airport is presently being drafted and will be submitted to the city sometime this month, it was indicated.
It will probably contain a recommendation for a second flight strip.
Dietrich indicated that a number of points must be watched carefully when the master plan is presented. Among these he listed: 1) the provision of a touch-and-go strip independent of a second flight strip; 2) proper approach and take off patterns (to protect nearby residents); 3) and proper provisions for hangars presently located on the airport.
Also of great concern to the airport manager is the inclusion of an access road to keep the cars off the present taxi strip. Such a road would run parallel to the strip.

COMING HERE
His mother, father, sisters, and brothers left for California upon hearing of the accident and were expected yesterday.
Funeral arrangements are being handled by Halverson-Leavell mortuary.
Crews worked for the Artistic Plating Co. in North Hollywood as a metal polisher.
Fiore, who was with United Airlines for 10 years, leaves his father and mother, two brothers and two sisters, all of Torrance. Fiore lived in Torrance two years. He was not married.
The tragic crash involved a Trans-World Airline's Super Constellation and a United Air Lines DC-7 which apparently collided in flight high above the Northern Arizona wastelands Saturday, then plunged in flames almost straight down into the canyon.
Apparent reason for the crash was a weather-caused coincidence that brought the planes to the same altitude in the same place at the same time.
