The Facts Behind the Big Holiday Conspiracy

Why is it that the combined newspapers of the country have banded together in a conspiracy of silence, suppressing the vitally important and voluminous Schedule of Special Days, Weeks and Months?

Now it can be told! They did it for one reason only—to deprive honest, gullible, non-suspecting citizens of their rightful holidays!

Why? Because the powers that be, in collusion with every major and minor newspaper of the country, are SCARED that if the truth were known, they would have to grant one big rollicking whing-ding of a holiday lasting from January 1 through December 31 of every year!

They are afraid that the people would clamor for the strict observance of all the special days, weeks, and months of the year and that the economy of the nation would come to a virtual stand-still.

I am not afraid to state openly that the most vicious and ruthless pressures were brought to bear on me when it became known that I was going to blow the conspiratorial secrecy lid sky-high.

The tactics used in their attempt to shut me up—for that is what it all amounted to—were brilliantly sinister in their subtlety.

They did not come right out and tell me to go fly a space ship. They did not try to insult me by suggesting that I was absolutely batty and that my plan was the most idiotic suggestion since my last one (to wit, my exclusive premise that the popular conception of Newton discovering the law of gravity when an apple fell on his head is false. Actually, Newton did not say "What goes up must come down." He said, "What goes down must come up." He discovered this concept one day when he happened to burp. Scientists have been misinterpreting his findings ever since. No wonder we have problems!!!)

To go back to the detractors of my "Holiday Proposal," They used none of the ordinary methods to discredit my contention that we should declare one big year-long binge of a holiday.

They used cold, colorless, reactionary reason, suggesting—mind you—that my plan just wouldn't work! But I said to them—and I say so again now fearlessly—IT WILL WORK!

By declaring a year-long holiday nothing will get done and everything will go to pot. By the same token, most of the events that are being commemorated by the Schedule of Special Days, Weeks and Months will pass out of existence since the very activities being commemorated will have come to a stand-still.

Then, when there are no more holidays to commemorate, everybody would go happily to work again the following year.

Let's all take a holiday, I say, and clear the air! (Next week: Some holidays worth considering—a few daring suggestions!)
