

Your "small change" is still big m

Yes, the fabulous Food Giant is the place where your small change really gets a superiority complex . . . and you would too if you could do the fabulous things it can do in one of our stores . . . those dimes and quarters and pennies which mean so little in other stores can really feel like "big money" when they are spent at F.G. because Food Giant's prices are the lowest possible consistent with quality . . . and the reason our prices are so low is because we sell more groceries (and things) than any other store in the community. If you doubt it come on in and see . . . let your small change take a look too!
