

# Talking About The Weather

By MARK BURBANK  
The first third of April has resembled May and June very markedly in that the days have been warm and pleasant and our old friend fog, or stratus as it is more properly called, has been paying us a visit lately. The first few days of April were clear with fairly warm

temperatures. However, the next few days were cloudy in the morning with the sun breaking through in the afternoon. The rest of the week was mostly clear and with temperatures ranging anywhere from 69 to 79. However nice it may have seemed here, it served as no indication of what the weather was like in the deserts. All during the weekend the deserts were buffed by winds which reached a velocity of 60 mph at times. The blowing dust and sand caused the California High-

way Patrol to close quite a number of desert roads for nearly a day and a half. During the months of April and May when there is stratus along the Coast of Southern California there are usually strong winds in the upper Colorado Desert region. It is these winds sweeping in from the coast that, picking up sand, and often pebbles as large as peas, etch the windshields and paint of automobiles, and blind the traveler's eyes with dust. As a word of advice, it is often wise to avoid making trips through the desert when the coastal fogs of spring are on.

## SPECIALIST IN JAPAN

Specialist Third Class James A. Friedrich, son of Mr. and Mrs. H. C. Friedrich, 1632 Juniper ave., is a member of the 76th Antiaircraft Artillery battalion in Japan. Specialist Friedrich, a supply clerk in the battalion's Battery A, entered the Army in September 1955 and received basic training at Fort Ord, Calif. He was stationed at Fort Bliss, Tex., before arriving in the Far East in March 1956.

The highest temperature last week was 78. The lowest was 40. One year ago today it was cloudy and raining with over a tenth of an inch being reported.

Today and tomorrow should be mostly sunny but with a possibility of some clouds. Not quite so warm today.

## HIGHWAY DIVISION 'BIASED'

Charges that the State Division of Highways is biased were hurled Monday by Assemblyman Vincent Thomas.

The assemblyman spoke before a Los Angeles City Council committee hearing called to discuss a tube connecting San Pedro with Terminal Island. "At this present session of the State Legislature, Northern California got 435 miles of new highway compared to seven miles for Southern California," Thomas said.

THE WORK an unknown good man has done is like a vein of water flowing hidden under ground, secretly making the ground green.—Carlyle.

MAN IS endowed by his rights, among which are life, liberty, and the pursuit of happiness.—Constitution and Bill of Rights.
