**Chuck Luhning — young man getting up in this world**

Just over a year ago, when Chuck Luhning decided to look into telephone work, he knew little about it. But because he showed good promise, he was hired and trained with regular pay. Today Chuck's a telephone lineman with a solid career ahead of him. In a business where management comes up from the ranks, there are lots of chances for promotion. The work is steady, and the pay keeps up with advancement. To Chuck, these things make a good job. And the fact telephone jobs are good, pays off for you, too. It means capable people are attracted into the business. And this means better service for you.

"Classroom in the sky," where Chuck Luhning got his training, is one of many telephone schools up and down the Coast. Others train operators, business office people, installers, and so on. Giving good people good training is another way we see to it that your service is in capable hands.

Working together to serve you better ....
