OFFICIAL MILEAGE—AVERAGE FOR ALL CARS . . . . 20.4

**TOP PERFORMANCE—TOP MILEAGE.** Cars representing over 90% of U. S. 1957 model automobile production got a thorough testing in the tough Mobilgas Economy Run just completed.

These high-horsepower stock cars, all with automatic transmission, used 1957 Mobilgas Special — the same superfuel you buy at Mobil stations. Despite increased horsepower and size of car, official average mileage was outstanding. Over 1568 rugged miles of mountain passes, long stretches of open road, tight town traffic, in all kinds of weather, with altitudes ranging from sea level to 7382 feet, every car reported dependable, knock-free performance and mileage.

**TOUGH, IMPARTIAL TEST.** Rules for the Run are rigidly made, rigorously enforced. Impartial observers, provided by the Sports Commission of the United States Auto Club, sat constantly alongside Run drivers.

Their job: to be sure cars were held to maximum legal speeds, never coasted, and all traffic laws scrupulously observed.

**CHECK THE MILEAGE OF YOUR CAR.** Column at lower left shows the best mileage each make gives when 1957 cars, 1957 Mobilgas Special, and competent drivers are challenged to "put out" their best. You'll get top mileage and performance, too, with 1957 Mobilgas Special.
