

Look they're selling Coffee che

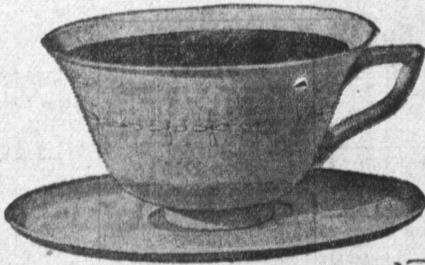

Say, it's getting to be a habit with us — selling coffee so cheap, that is. But selling things at the very lowest prices consistent with quality has been a habit that we've had for all the years we've been in business. You see it's just simple mathematics that makes our low prices possible. We sell more groceries than any other store in the neighborhood . . . the more we sell, the more economically we can do business, and the more economically we can do business, the cheaper we can sell merchandise. However, if you're not interested in WHY we can sell so cheap, but are only interested in WHAT we're selling, cheap . . . coffee and things — that's what we're selling cheap. Come on in and see for yourself!
