Many Republicans have received this letter in the mail. If you are not among them, please regard this as directed to you.

COMMITTEE FOR REPUBLICAN VICTORY

1133 Highland Ave.
Manhattan Beach, California

Dear Fellow Republican:

It is a well known fact to most Republicans that if Senator Knowland carries out his announced intention not to seek re-election, the probability of his being succeeded by a Democrat is very great. In addition to this result, it is just as probable that if Senator Knowland should enter the race for Governor of California, our next Governor will not be a Republican. Unfortunately, most of us are doing little to try to avert this unpleasant result, and the purpose of this committee and this letter is to try to accomplish something tangible in the right direction.

It is our sincere and carefully considered opinion that every possible effort should be made by all Republicans to convince Senator Knowland that he must seek re-election at the end of his present term; that he should so declare himself without further delay and that he should not enter the contest for Governor of California.

Senator Knowland has made an enviable record during his comparatively short time in office, and this fact, together with the fact that his Seniority and Prestige cannot be replaced in any practical way by any other candidate, make it essential that he continue in the Senate.

It is our hope that you will respond to this plea to immediately write or wire to Senator Knowland urging him to reconsider and to promptly announce his intention to seek re-election, in the best interests of our Country, our State and our Party.

Senator Knowland should be reminded of two important facts.

First: That the present status of California politics, with the huge majority of Registered Democrats, makes it difficult and expensive for a new Republican candidate to be elected to the office to which the Senator can be re-elected, with the united support of the party.

Second: That a contest between two strong Republican candidates for any state office will impose a great physical and financial burden on the Republican Party with the probable result a victory for the Democrats.

Please send such message to the Senator at once and send us a copy for our files.

Yours in the interests of
Good Republican Government
