

# Tax Bill Would Decrease Huge Federal Spending

For the first time in history, a tax reduction bill has been introduced in Congress which will compel big federal spending to compete against regularly scheduled tax reductions. The idea of such tax cuts having precedence over the budget requirements of the federal government is a novel approach and has intrigued millions of tax-squeezed Americans.

On March 28, Congressman A.N. Sadlak of Connecticut introduced H.R. 6542 which calls for reductions, starting at the 20% level, over a five-year period, and setting a maximum rate of 42% even at the top levels.

H. R. 6542, however, is not just concerned with the top income levels and top rates. It will bring the basic rate of individuals from the present 20% down to 15% with further reductions in the middle income brackets where 16,000,000 Americans find themselves today.

Not Just Basic Rate  
Sadalak has spotlighted these examples of rate reduction: \$4000-\$6000 bracket from 26 to 17%; \$8000-\$10,000 bracket from 34 to 19%; \$12,000-\$14,000 from 43 to 21%; \$16,000-\$18,000 bracket from 50 to 23%; and \$20,000-\$22,000 bracket from 56 to 25%.

In stating why he believes rates should be reduced all along the line, and not just at the basic rate, Congressman Sadlak says, "I am convinced that achievement of a moderate

## HOW SADLAK TAX PLAN WORKS

ON \$4,000.00 INCOME ANNUAL SAVINGS WOULD AVERAGE... \$200.00 AT END OF FIVE YEAR PERIOD.....

\*TAXABLE INCOME AFTER DEDUCTIONS & EXEMPTIONS

SAVE \$200.00

to consideration in preparing this bill. His bill provides for a limited postponement of the tax reduction schedule. These legislative safeguards are in the form of procedures whereby the scheduled rate reductions could be spread out to a maximum of nine years without change in the basic law.

All tax reductions, unless postponed, would go into effect on Jan. 1. The bill authorizes the President on Nov. 15 of any year, if he feels there is reason, to order a six months postponement of the tax reduction. After such a postponement, Congress could before May 15 either order the reduction into effect on July 1 of postpone it further until the following Jan. 1, by means of a joint resolution.

Favor Lower Levels  
If Congress fails to act, the President may allow the reductions to go into effect or further postpone them until January. When the tax reduction scheduled for any year is postponed, then all reductions scheduled for subsequent years must be deferred one year.

No scheduled cut may be postponed more than one year, however, so the entire bill could conceivably take as long as nine years to take effect if all postponements are used. Congressman Sadlak points out that an individual who had \$4000 annual taxable income would, at the end of five years, be paying \$200 less per year in taxes than he now pays. In

fact, Sadlak proves that under his plan, 60% of all savings would fall on those taxpayers with annual incomes of \$6000 or less.

Adopting Resolutions  
This bill is now in the House Ways and Means Committee, but is creating widespread interest throughout the nation. Thousands of letters are reaching the committee members and other Congressmen and Senators asking that open hearings be held on the bill. Hundreds of service clubs, Chambers of Commerce, and other organizations have adopted resolutions calling for open hearings.

Letters and resolutions reaching Congressman Jere Cooper of Tennessee, chairman of the Ways and Means Committee; Congressman Cecil King of California and Antoni N. Sadlak of Connecticut are being given full consideration and it is possible that the bill can be brought into open hearings, which may result in the introduction of a tax relief bill onto the floors of Congress that will provide such relief without resort to deficit financing.

Sees Public Approval  
Congressman Sadlak, in introducing his bill, said, "We cannot have both tax reduction and the spending. It is up to the taxpayer to make a choice." Many believe that the nation's citizens will make that choice and will continue to insist that the government stop big spending and start instituting some form of tax reduction.

## Junior Division Diving Championships Announced

Victor E. Benstead Plunge announced.

Freestyle, One width (22 yds.). Lucy Steele, 16.9 sec.; Archie Turner, 13.9 sec.; Sandra Coffee, 13.8 sec.; Brian Olsen, 13.4 sec.; Susan Fitzgerald, 13.4 sec.; Freddy Enockson, 15.1 sec.

Freestyle, two widths (44 yds.). Lucy Steele, 40.1 sec.; Archie Turner, 32.1 sec.; Sandra Coffee, 31.8 sec.; Brian Olsen, 32.5 sec.; Nancy Drumright, 31.9 sec.; Dale Williams, 38.3 sec.

Backstroke, one width (22 yds.). Debbie Dahen, 19.3 sec.; Archie Turner, 18.4 sec.; Marcia Binford, 17.6 sec.; Philip Hauser, 17.6 sec.; Nancy Drumright, 17.6 sec.; Jerry Roberts, 17.6 sec.

Breaststroke, one width (22 yds.). Sharon Coffee, 24.5 sec.; Archie Turner, 21.1 sec.; Sandra Coffee, 16.7 sec.; Wesley Steele, 20.5 sec.; Nancy Drumright, 22.0 sec.; John Connors, 14.1 sec.

Butterfly, one width (22 yds.). Lucy Steele, 22.2 sec.; Archie Turner, 18.7 sec.; Sandra Coffee, 15.8 sec.; Philip Hauser, 16.8 sec.; Nancy Drumright, 17.0 sec.; Billy Armstrong, 22.6 sec.

Individual Medley No. 1, one width each. Debby Dahlen, 1.28.4; Archie Turner, 51.1; Sandra Coffee, 50.9; Wesley Steele, 1.07.6; Nancy Drumright, 1.09.3; Joel Devenish, 1.21.5.

Individual Medley No. 2, 22 yds., each. Archie Turner, 1.43.1; Debby Dahlen, 2.16.0; Sandra Coffee, 1.26.6; Wesley Steele, 1.41.6; Nancy Drumright, 1.20.0; Dale Williams, 2.09.4; Leslie Sautter, 1.20.0; Jim Hadley, 1.45.1.

Four man relay 22 yds. Lucy Steele, Sharon Coffee, Deborah Williams, Debbie Dahen, 1.18.6.

Steven Turner, Jeffrey Binford, Howard Graybehl, Archie Turner, 1.20.0.

Four man relay 22 yds. Cheryl Fazio, Marcia Binford, Marjorie Wisdom, Sandra Coffee, 1.03.9.

Danny Rickard, Wesley Steele, Philip Hauser, Mike Fitzgerald, 59.6.

Sandra Coffee, Susan Fitz

## OSCAR WINNING LOMITA CABBIE

Winner of the nation's top award for driving, the "Cabbie's Oscar" is Sam S. Nigro (right), Lomita cab driver. His selection as a Four-Star Driver of 1957 won him an all-expense trip to Detroit and Washington, D. C. as guest of Plymouth and Fargo divisions of Chrysler Corporation, a cash award and the coveted Oscar. He is shown above receiving his award from Robert L. Biggers, president of Fargo. Nigro resides at 25905 Walnut, Lomita.

## CENTRAL TORRANCE ALL STARS

Making the All Star team in the Central Torrance Little League were (l-r) front—Joe O'Neil, Yankees; Richard Woodward, Braves; John Cambon, Stars; Mike Chancini, Cardinals; Danny Carrasco, Stars; middle row—Mark Hunt, Braves; Les Stanton, Braves; Ernie Clayton, Stars; Jim Wilson, Cardinals; Mike Hartley, Yankees; top—Al Whalen, manager; Dexter Patrick, Stars; Steve Waters, Braves; Bob Sonju, Yankees; Jeff Lillywhite, Cubs; Gordie Smith, co-manager. The All Stars lost to North Torrance All Stars, 4-2.

## Lomita Man Now Major

Warren E. Hinds, son of Mr. and Mrs. Roy E. Hinds, 460 E. 214th st., recently was promoted to major while serving with the U. S. Army, Ryukyus Command, Okinawa.

Major Hinds entered the Army in 1939 and was last stationed at Fort Bragg, N. C.

## BREAKFAST

A DeMolay breakfast will be held at the Masonic Temple, 25725 Bland Place, Lomita, on Sunday, August 18, from 8 a.m. to 12.

This is the project of Dale Gonzalez, senior counselor, who will be in charge of arrangements.

The public is invited.

## Southern Calif. Edison Co. Lays Gigantic Double Pipe

Three deep sea divers were working in relays today to complete a gigantic double pipeline extending 1,600 feet along the ocean floor, off Huntington Beach, which will be used to pump sea water into Southern California Edison company's new steam electric generating station.

The divers are connecting sections of pipe, 14 feet in diameter and weighing 50 tons apiece, according to Edison engineers. This is the largest pipe ever made on the West Coast.

The double pipeline will be able to carry 390,000 gallons of sea water per minute to the Edison plant, where it will be used for cooling purposes—to condense steam back into water after it has provided power to turn the huge turbines. The water then will be returned to the ocean.

The 50-ton sections of pipe are lowered into the ocean by steel cable slings attached to a gantry crane which rides on rails on a construction pier especially constructed for this purpose. The pier will be removed after the pipeline operation is finished.

A steel T-wall also has to be built on either side of the pier, extending for more than 800 feet into the ocean, so that the trench for the pipeline would not be "back-filled" by ocean current as it was dug.

The double pipeline is being buried under 5 to 10 feet of sand in order to protect it against drift caused by ocean currents.

Huntington Beach steam station, now under construction, will represent an investment of more than \$60,000,000, and will provide enough generating capacity to supply electric power to nearly 700,000 people. It will consist of two units, each with generating capacities of 200,000 kilowatts. Unit No. 1 is scheduled for completion in the summer of 1958, and No. 2 is expected to go into operation by the end of 1958 or early 1959.

The Huntington Beach project is part of a Southern California Edison expansion program budgeted at \$300,000,000 for 1957 and 1958. The expansion is necessary to "build ahead" of anticipated needs in one of the fastest-growing industrial and residential areas in the nation and to provide Edison customers with the best possible electric service at minimum cost, the company pointed out.

## New Refuse Collection Rules Told

For the information of its readers the Torrance Press presents some of the most frequently asked questions concerning refuse collection. This interest is being expressed by the public in view of the ban against single chamber incinerators used by business, industry and commercial establishments and the scheduled ban on October 1 for all single family residential backyard burning in Los Angeles county.

Answers to these questions were provided by the Air Pollution Control District in cooperation with various city and county officials and may therefore be viewed as authoritative.

Q. May we mix combustible and non-combustible rubbish in the same container?

A. No. While municipal ordinances may vary from city to city, in general, cans and other non-combustibles must be sorted into separate containers.

The Los Angeles City Bureau of Sanitation and the city of Torrance require separate containers for cans, papers and garbage.

Q. On what day of the week will combustible rubbish be collected?

A. In the city of Los Angeles, call the Refuse Collection division, LUdlow 8-5261. They will advise you of the collection dates for your neighborhood. In Torrance call FA. 8-4214.

In the unincorporated areas of Los Angeles county call Mutual 9211, extension 3815 or 3816 for this information.

Q. Will rubbish be collected from alleys in Los Angeles and Torrance.

A. If cans and garbage were previously collected from sites located in alleys in the rear of or adjacent to apartment houses or private dwellings combustible rubbish will be picked up from the same location.

Q. What amount of combustible rubbish may I put out on collection day and what size containers should I use?

A. There is no limit to the quantity of combustible rubbish which may be set out for collection in Los Angeles or Torrance. In general, sturdy containers of metal or wood, preferably with lids, and from 10 to 50 gallon capacity are recommended for storage of trash.

Again, a check with your local collection officials will indicate the exact size of containers to be used. Torrance officials prefer sturdy but light containers (like masonite or light metals). Torrance puts a 70 pound restriction on each individual rubbish load (including container, but no restriction on the number of containers).

Q. Must newspapers, magazines, tree limbs, shrubs and trimmings be put out in containers for collection?

A. No. These materials need not be placed in containers provided they are securely tied in bundles no more than 4 feet long nor more than 80 pounds in weight. Torrance limit per bundle is 70 pounds.

Can paper wrapped garbage be mixed with other combustible refuse?

A. No. Do not mix garbage, wrapped or otherwise, or non-combustible rubbish with combustible refuse. Other collection days have been established in most instances for these materials. Check with officials in your area concerning collection dates for garbage, cans and non-combustible rubbish.

Q. I own a small business in the city of Los Angeles. Will my rubbish be picked up by city collection?

A. No. Refuse Collection Division, Bureau of Sanitation, City of Los Angeles, advises that residential rubbish collection service will not be extended to commercial establishments such as hotels, restaurants, motor courts and public camps. In Torrance, the city will pick up such rubbish.

Q. I live in a community outside of the City of Los Angeles. Where can I find out what collection service will be available and when it will start?

A. In Torrance call FA. 8-4214. If you live in the unincorporated area of Los Angeles County call Mutual 9211, extension 3815 or 3816 for this information.

## WELCOME TO TORRANCE

Visiting here from Hawaii was Herbert D. Tanaka, president of the Junior Chamber of Commerce of Hawaii. The 35-year-old Honolulu public accountant is a graduate of the University of Hawaii, has his master's degree from USC, is a lieutenant colonel in the US Army Reserve and one of four highest ranking American-Japanese in the US Army. Welcoming him here are (l-r) Shirley Robinson, Valda Wilkins, Rose Mary Flacey, and Shirley Portzer of the Torrance Chamber of Commerce.—Press Photo.

## City Employees Join AID-United Givers

Mayor Albert Isen has designated this week as "AID-United Givers Week" in Torrance to encourage more than 400 city employees to participate in the AID-United Givers program.

According to Mrs. Esther Lowen, AID-United Givers chairman for the city of Torrance chapter, the dollar increase among city employees has been 347 percent over what they gave to charitable causes before joining AID-United Givers.

Assisting Mayor Isen in laying plans for wider participation in the AID-United Givers program at City Hall were Battalion Chief Robert R. Lucas of the Torrance Fire department, Lt. Alex Thompson of the Torrance Police department and Mrs. Lowen.

AID-United Givers, a non-profit organization operated by a voluntary board of directors,

was organized in 1951 as a result of interest shown by many citizens towards the problem of charitable fund raising.

Policies were adopted as a means of eliminating multiple drives and towards providing more money at less overhead cost to the donors. During the last fiscal year operating costs have been reduced to 4.3 percent.

Donors may designate their contributions in whole or in part to any of the causes in AID-United Givers or to any other specified charity of their choice. Contributions benefit local community agencies and chapters.
