MEMBERS OF THE NATIONAL SUPPLY Employee's Club were the first to join the Torrance Fire Fighters March for Muscular Dystrophy with their contribution of \$150. Here Jean Bost, Membership Chairman for the Club, presents the check to Engineer Sam A. Martin, Business Chairman for the drive, as Captain Walter R. West, Campaign Chairman, looks on. The fire fighters will conduct a house-to-house canvass throughout the week and all Torrance fire stations will be open to receive contributions. Medical research is the only hope of the Muscular Dystrophy victim; Help keep this hope alive with your contribution to the fire fighters as they "walk for those who cannot walk for themselves."

**'Float' the City's Float In Rose Bowl Parade**

Torrance, the All-America City, is proud of its citizen participation in community projects. One such project—placing a Torrance float in the Tournament of Roses Parade—requires community support now. Clip the coupon below and mail it with your donation to the Torrance Chamber of Commerce. Memberships in the Torrance Tournament of Roses Association are as follows:

Associate \$1; Sustaining \$5; Sponsor \$10; Patron \$25  
Your membership card will be mailed to you.

**Mental Health Act Received By 20 Cities**

Response by cities and counties to the Community Mental Health Services Act, which became effective two months ago, has already exceeded the most optimistic expectations of those who supported this measure in the last session of the legislature.

Under this act, communities desiring to establish clinics on the local level may obtain state assistance of 50 per cent for local programs designed to prevent and combat mental illness.

Both the city and county of Los Angeles and the city of Long Beach have already taken steps to expand existing facilities, and some 20 other localities have applied for aid in establishing community mental health services for the first time.

The primary purpose of the new program is to get at mental illness in its early stages and to treat patients who are living in a home atmosphere, rather than to wait for the more aggravated stages of such disorders when the afflicted must be removed to a mental hospital usually far from home and family.

It is specifically stated in the act that "services to individuals shall be rendered only upon voluntary application," and thus any fear of compulsion is eliminated at the start.

Present estimates are that

state supported clinics will provide help to persons with mental or emotional problems for approximately \$5 a visit, although it could be more or less depending upon the ability to pay.

Major services will consist of out-patient psychiatric clinics for those who are unable to obtain private care, and in-patient psychiatric services in general

hospitals and non-profit psychiatric hospitals which are affiliated with general hospitals. The individual programs will be administered locally.

In addition to this statewide program, Los Angeles county residents will also benefit from the new Neuro-Psychiatric clinic to be added to the medical facilities at UCLA.
