IF YOU LOVE FINE MUSIC...
YOU DESERVE THE GLORIOUS
TONE QUALITY ACHIEVED IN THIS

NEW 1958 ZENITH
HIGH FIDELITY INSTRUMENT with

ADD IT UP!
4 TONE BALANCED SPEAKERS
+ 2 SPEAKER HI-FI REMOTE UNIT
6 SPEAKER HIGH FIDELITY SOUND SYSTEM

Our hearing patterns vary almost as widely as do our fingerprints. Our abilities to hear, however, can be improved. Our hearing mechanisms are stimulated by certain associated sounds. The new electrostatic tweeters used in the Zenith High Fidelity Sound system are only 2 $\frac{3}{4}$ " square. They reproduce a wide range of associated sound frequencies to stimulate our hearing abilities. With this accomplished, the precision reproduction of sounds from the large 12" extended range woofer speakers can be heard more completely...adding tremendous new enjoyment to the playing of phonograph records.

PLUS world-famous featherlight **COBRA-TONE ARM**
"Positive angle" pickup is scientifically designed to permit needle to "float" in the record grooves. Records sound better, last longer.

High Lateral Compliance...only needle moves forward to ride in groove for more faithful sound reproduction.
Quiet Needle Cartridge...turn over cartridge to change from 1 to 2 mil styles. Serurot M5000 cartridge has minimum distortion.
Full Diamond and 5 mil manufactured sapphire tip.

NOW THERE'S A NEW MAGNIFICENCE IN HIGH FIDELITY
The **Model WF202**—High Fidelity Console. 2-12" woofers, 2 electrostatic tweeters with response 40 to 15,000 CPS. 11 watts **UNDISTORTED** power output. Loudness Control. Presence Control. Record Compensator. Separate Bass and Treble Controls. Fine quality wood cabinet in grained Mahogany color.

REMOTE SPEAKER CABINET WITH 2 HI-FI SPEAKERS TO ADD DEPTH TO TONE QUALITY.
NOW BOTH FOR **ONLY \$199⁹⁵**
