Pork Seasoning

Here's a special seasoning for

Spring lamb is recognized by its deli-
cate pink color and fine texture. And
it's the milk feeding that gives this
lamb its fine, exciting flavor and
tenderness. As always, there's extra
value, too, because at Food Giant, all
excess fat has been removed before
weighing. Nor will you find the heavy
shank bone, for this, too has been re-
moved. There's extra value at no extra
cost.
