TRAINED TO SUCCEED

General Petroleum believes it's important to train young people in our free enterprise system. Therefore, in the Torrance area and throughout the West, we actively sponsor the Junior Achievement movement—where, after school hours, students learn the world of business by being in business.

Under the guidance of General Petroleum volunteer counselors, teenagers set up corporations, make their own

products, and sell stock to family and friends, thus duplicating all the processes of a bona fide business. From this combination of training and experience, knowledge is gained that will help them in the years to come.

Our participation in Junior Achievement is another of the many efforts General Petroleum is making to benefit our younger citizens.
