

Letters to the Editor..

To the Editor:
The Los Angeles County Chapter of Muscular Dystrophy Association of America Inc. wishes to express its appreciation for being included as a recipient of funds raised by members of the Torrance Education Association through their "unified giving" program.

This fine group of teachers are to be highly commended for their efforts on behalf of worthy charitable causes, and we are deeply grateful for their contribution of \$123.86 to aid muscular dystrophy victims.

The fight to conquer MD, a disease that first cripples then kills its victims, is conducted year around by the Los Angeles chapter. It is through the help of such interested groups as the Torrance Education Association, that the expanding program of patient services to aid those afflicted, is made possible.

It is gratifying to know that groups and organizations throughout L. A. County are becoming more and more aware of the problems of muscular dystrophy, and through this awareness, are contributing to aid in the search for the cause and cure of this dread disease that now afflicts more than 200,000 persons, 135,000 of whom are children.

—RUDY PACHT, President.

To the Editor:

The volunteers and staff of the Torrance Red Cross branch wish to thank you for the generous amount of space you devoted to reporting the needs of the Red Cross and its services to the community during the past year.

We are certain that your constant support has had a direct bearing on the splendid outcome of the 1958 Red Cross fund campaign in this community. As you know, Torrance along with the Harbor region excelled as participants in the Los Angeles chapter's overall fund appeal.

For this, the Torrance branch owes you and your staff a real debt of gratitude.

—S. E. REMELMEYER, Chairman, Torrance Branch Board of Directors.

To the Editor:

I wish to express sincere appreciation for your splendid cooperation during the American Cancer Society's April crusade. You will be happy to know that the Centinela Valley-South Bay District had a most successful campaign and was the first district in the county "over the top" with 107 per cent of goal.

The Torrance Press has always played an important part in bringing news about cancer to the people of the South Bay communities. It has helped a great deal during the American Cancer Society crusade by publicizing the urgent need for funds to carry on the fight against cancer.

Thank you again for your interest and cooperation.
—MRS. MYRON GAZIN, District Publicity Chrm., American Cancer Society.

To the Editor:

I certainly think the death of Mrs. (Jess) Mata, which occurred on Memorial Day, has shaken up the Torrance neighborhood. I can recall a motorcycle accident last November, where a 23-year-old youth was seriously injured, was picked up by an ambulance and taken to a hospital and was refused admittance.

This fellow was bleeding at the mouth, nose and ears, was finally admitted to another hospital one hour and 45 minutes later.

Now we all know what hospitals, doctors and nurses are for. We also realize it doesn't take a doctor to admit an emergency case to the hospital.

If I may be allowed to say, a hospital that would turn an emergency case away should be forced to close its doors for good. Just what would you do if it was a member of your family. This would be hard to take.

Thank you,
MRS. KNIGHT.

Registration Set for Tomorrow

The call is out from the Torrance Recreation Department for all those interested in modern dance. "The program is going into its third summer with many interesting activities ahead," says Mickey Van Deventer, director of last summer's program. Plans are already underway for the big Aquacade July 25 and 26, bandshell programs in Torrance Park, and various special programs at the Civic Auditorium. The open house show at the Civic Auditorium Aug. 22 will climax the summer, featuring a dance demonstration and special numbers. Miss Van Deventer will be joined this summer by Judith Weiss, a dance student at USC.

Registration for dance classes began Monday, June 23, and continues through June 27 and can be made by calling FA 9-9954, and if no answer, FA 8-4168. The class schedule runs as follows: 10:15-11 a.m. beginners, ages 7-12; 1:15-2 p.m. intermediate and advanced ages 7-12, and 2:15-3:15, high school and college age students that have had some experience with dance. All classes and rehearsals will be held in the Torrance Civic Auditorium, located at 1349 El Prado.
