

Swim Pool Lid Costs Reported

It would be cheaper to build an additional indoor pool, than to cover the Victor Benstead Plunge for all-year use.

That was the report of Harry Van Bellehem, director of the Recreation Department to the Park and Recreation Commission last night.

He said that it will cost approximately \$200,000 to construct a 75 by 75 foot adjacent, competition indoor pool with bleachers. To cover the present outdoor pool used only during the summer, will run \$250,000, he said.

The director also made a number of recommendations, to improve the present pool.

Torrance Youth Band in Search for Young Musicians

An active weekly band program is offered to young people in the area by the Torrance Area Youth Bands in conjunction with the Torrance Department of Recreation. Weekly rehearsals are held in the Civic Auditorium for students of the elementary schools on up through college age.

The Junior Band for students of elementary school age is held on Saturday mornings from 9:30 to 11:30 a.m. Around fifty students have already enrolled in this program. The Cadet Band, composed of students of high school age and a few eighth graders, is held on Thursday nights from 7 to 9 p.m. About sixty-five students have joined this group. Both the Junior and Cadet bands are under the joint

direction of James Van Dyck, director of the Torrance Area Youth Bands, and J. W. Davidson, music instructor in the Torrance Schools and director of the "Fun Through Music" program of the department of Recreation.

The Concert Band, composed of select high school and College students meets each Monday night from 7 to 9 p.m. Forty-two students have enrolled in this group. A few openings now exist in this band. Anyone interested in this group must be a "serious and studious" musician and must audition before being accepted for membership. Information on any of the three groups can be obtained by calling James Van Dyck, FA 8-5273, or contacting Davidson through the Recreation Department.

Both the Cadet Band and the Concert Band will represent Tor-
