This "secretary" works overtime and loves it

Nighttime, daytime, all around the clock—this Electronic Secretary sees that you never miss a phone call when you're away from your office.

Automatically, it promptly answers every call with a courteous recorded voice—advises the callers that you're not available at present—asks them to speak the message which will be recorded. It's as simple as that!

All you do is play back the messages

when you return. In fact, with a remote call-back attachment you can phone your own office and hear the playback of messages wherever you are.

Wonderful, isn't it? And most wonderful of all, you can have this dependable service, free of human errors, at a surprisingly low cost.

For full details, phone our Business Office.
