drivers that it is still treacherous. Fog of any kind reduces visibility more than we realize. To help the situation, reduce your speed and use headlights, not parking lights, in fog.

The Automobile Club of Southern California offers these tips for night driving: check all your lights; keep windshield and faces of dashboard gauges clean; dim your headlights for oncoming traffic or when you come up

behind a car; should the oncoming driver fail to dim his lights, guide yourself by the right edge of the road; when dusk comes, use headlights not parking lights.

**Explain Shift in Game Seating**

A new procedure is now used at Torrance High School at the home football games. Only Torrance High School students are permitted to sit in the bleachers on the south side of the athletic field.

This is being done on request of the student body to improve the sportsmanship rating of the student section during football games.

For many years, Torrance has had a low standing in the Bay League Sportsmanship Race.

At the first game, the school sportsmanship judges gave the student rooting section a score of 95%. Thus the new procedure gave strong evidence of the success of this change.
