

Couples Plan To Attend New Year Party At Temple

Looking ahead to the new year and eagerly awaiting the festivities on the last night of the old one are Mr. and Mrs. Lee Solomon of Redondo Beach, Mr. and Mrs. Earl Sumpter of Torrance and Dr. and Mrs. Gene Kaufman of Torrance. They are planning to attend Temple Menorah's New Year's Eve dinner party.

The theme of the evening is "A Catered Affair" and it will be carried out by one of the South Bay's well known catering establishments. Free champagne will accompany the meal.

The fun begins at 10 p.m. at the temple, 112 N. Catalina, in Redondo Beach. The 10 dollar price of admission per couple includes dinner, champagne, favors and dancing.

Reservations must be made in advance by calling Mrs. Albert Carmona at FR 9-7953

Improvement in Steel Output Seen by Firm

Continued moderate improvement in the Western steel picture is indicated for the early months of 1959, L. B. Worthington, president of Columbia-Genève Division, U. S. Steel's basic producer in the Western states, said in a year-end statement.

Improved demand for steel in the West in the late months of 1958 reflects the strength of the Western economy and "there are encouraging signs indicating that the new year will be a better business year than the 12-month period just ending," he stated.

Worthington cited continued improvement in the economy generally and an apparent move on the part of steel buyers to replenish their inventories as major reasons for anticipating "moderate pickup" in steel orders.

Supervisors Seek Federal Aid on Pollution Problem

In a motion by Supervisor Kenneth Hahn, the United States Government was urged to request this week to take immediate steps to concentrate its efforts on four problems of air pollution and produce results.

His motion, which was almost identical to one which he presented four years ago, was unanimously adopted by the Board of Supervisors.

"We have not had enough concentrated effort by the United States Government, which has vast scientific resources at its disposal, and as a result, the air in Los Angeles County today is just as smoggy as it ever was," Supervisor Hahn declared.

The Government was requested to:

1. Step up research on the problem of air pollution coming from the automotive exhaust and the production of a satisfactory control device.
2. Conduct research on contribution of the petroleum industry to air pollution and an investigation as to possible changes needed for the production of the cleanest possible type of gasoline.
3. Emphasize research on the health effects of air pollution on the human being.

The Board of Supervisors also reiterated its support of proposed legislation which would enable business to more speedily amortize expenses due to installation of non-productive smog controlling equipment.

Copies of the motion are being sent to President Eisenhower, Vice President Nixon, members of Congress, the Secretary of Health, Welfare and Education, and to the Surgeon General of the United States Public Health Service.

States Government, which has vast scientific resources at its disposal, and as a result, the air in Los Angeles County today is just as smoggy as it ever was," Supervisor Hahn declared.
