REVOLUTIONARY ANNOUNCEMENT!

natural hair coloring restored in just minutes

Color as near your original shade, prior to turning gray, as it is humanly possible to attain... you'll never believe it until you see it.

You will read the most important part of this revolutionary announcement in the last paragraph. Months ago we witnessed John Garton, originator of Bon Coif (the French say "Bon Kwaf") put a colorless liquid on a strand of grey hair and in minutes we watched the grey hair turn back to its original color. We thought it was pretty close to a miracle. Mr. Garton then told us that when colorless Bon Coif comes in contact with the natural oils of your scalp and hair it induces an amazing action that actuates your own individual hair color to replace the grey, off-color or streaked appearance in just minutes.

Following this amazing demonstration, we introduced Bon Coif which is formulated under the clinical supervision of one of America's finest cosmetic laboratories. The response from both men and women has been so wonderful we have persuaded the distributor of Bon Coif to make available to those of our customers who have not tried this marvelous formula a special trial package for only 2.00 (plus federal tax). Regular size up to six months supply \$6.00 (plus federal tax). By following the easy directions with a lock of your own hair you can make the same test Mr. Garton made for us and see the amazing results yourself before actually treating all of your hair. The remaining formula is sufficient for one to three treatments.
