Bids Called for Alondra Park Community Building

Supervisor Kenneth Hahn announced today that final plans and specifications for a community recreation building in the northwest section of Alondra Park have been approved by the Board of Supervisors and a call for bids issued.

Bids on the project will be opened by the County Engineer on August 12.

The new recreation building, planned to make possible a greatly improved and expanded recreational program, is the latest in a series of major improvements.

Hahn pointed out that in addition to the regular schedule of recreational activities that will be instituted when the building has been completed, it can also be used for a variety of other purposes including meetings of civic organizations, veterans groups, youth organizations, square dancing and other recreational activities.

Plans for the new building were prepared by the architectural firm of O'Leary and Terasawa.

Project will include site development and the construction of a building of nearly 5000 square feet.

The building will contain a large activities room, a meeting room, crafts room, utility room, kitchen, offices, and rest rooms. The exterior will be of reinforced

brick construction. Adding to the building will be large paved patio areas, totaling nearly 10,000 square feet. Site work will include grading,

paving, fencing, brick walls and planters, sidewalks, curbs, drainage, and landscaping.

The new building will face on Manhattan Beach boulevard and will be located north of the existing baseball diamond in the northwest part of the park.
