

HOSPITAL ADDITION—Construction is going ahead on the \$60,000 expansion program at Riviera Hospital. The new wing includes a waiting room for out-patients, expanded nurses lounge, a new doctor's lounge, laundry facilities, larger pathol-

gy lab and bigger medical records area. Included in the new equipment to be installed with a new x-ray machine that can detect tumors and other brain injuries.

New Law to Establish Water Data

As urged by Supervisor Kenneth Hahn, the Board of Supervisors will soon have before it an ordinance which will establish standards for water systems in subdivisions and guarantee that there will be an adequate water supply and pressure for fire fighting. Adoption of the ordinance will be a major step forward in protecting the people of Los Angeles County against defective water mains and systems since all water installations will now be required to meet rigid standards recommended by the County Engineer, Hahn said. Hahn pointed out that at present there are no minimum standards for water systems and as a result many private water companies in the past have used defective mains and pipes. "This has resulted in additional and unnecessary costs to the property owners as well as expense and inconvenience to the motoring public when the streets

Willey Becomes Grandpa Again

Torrance Press Photog Art Willey will have more than professional interest in some picture-taking chores he is about to perform. He became a grandpa for the second time Sunday, when a 6 pound, 11½ ounce boy was born to his son and daughter-in-law, Mr. and Mrs. Roger Willey of Dominguez. The latest addition to the Willey clan was named Kurt Jay. The Roger Willeys have another child, a daughter, Antoinette Louise, 17 months.

and parkways have to be torn up to replace faulty water lines," Hahn declared. He said that in one area in his district a private water company several years ago had used boiler tubing for water lines and that they have been rapidly deteriorating. The ordinance will also require that any new water supply systems in subdivisions, or any henceforth installed in older areas, must be adequate for supplying enough water and sufficient pressure for fire suppression.

Torrance Third in Building for First 6 Months

Figures just released by the Chamber of Commerce through cooperation with Security First National Bank indicate Torrance is now in third position among Los Angeles County cities in building permit valuations for the first six months of 1959. Chamber President J. H. Paget said Torrance issued \$2,796,990 of building permits during July to bring its half year total to a high of \$17,737,443, an increase of more than \$2 million over last year's figure. The July 1959 figure is almost a million dollars higher than 1958. Los Angeles leads the list with \$388,769,175, followed by Long Beach with \$37,171,355. Glendale is a distant fourth to Torrance, more than \$2 million behind, followed by Pasadena, Santa Monica and Beverly Hills. The cities above listed are the only L. A. County cities to pass the \$10 million mark in the first half of 1959. Other South Bay cities rank as follows: 10th—El Segundo, \$8,613,694; 19th, Redondo Beach, \$5,145,026; 29th—Manhattan Beach, \$2,950,167; 34th—Palos Verdes Estates, \$2,450,963; and 36th—Hermosa Beach, \$1,778,743.

Sears Officials Welcomed Here
