## Board of Education Takes Action on 138 New and Rehabilitated Classrooms Here

Providing enough classrooms for Torrance's burgeoning youth population was a major order of business at the Torrance Board of Education meeting Tuesday as it took actions involving 138 new or rehabilitated local classrooms.

The board actions, involving more than \$4,000,000 in bond funds, were:

1. Adams Elementary School, 2121 W. 238th, will open Monday, April 18. The new facility will relieve presently overcrowded Wood Elementary School and will contain 10 classrooms, administration unit, homemaking and shop facilities, and a cafeteria.
2. Fern Ave. School, 1314 Fern Ave., which has been modernized and rehabilitated to make it earthquake-proof, will reopen on Monday, April 25. The nine classrooms and administration facilities will eliminate double sessions at the Fern-Greenwood plant. The cafeteria, however, will not be in operation.
3. Neptune and Thomas, architects, were hired to draw plans for the new Hickory Ave. Elementary School, 230th and Hickory. The plant, with 10 classrooms, administration unit and cafeteria, will serve a new housing tract southwest of Crenshaw and Sepulveda.
4. Subdivider Don Wilson was offered \$200,586 for the Hickory Ave. site, which contains about 10 acres. The price includes a number of improvements—grading, street work, sewers, water service, and a wall—already in the process of being installed.

5. Architect Roy Donley was commissioned to draw plans for classroom additions as follows: Magruder, five; Jefferson, Hamilton and Adams, four each; Parkway and Riviera, three each; Lincoln and Columbia, two each. Music rooms would be added at Magruder, Jefferson and Parkway.

6. Working drawings by Donley were approved for additions at four schools, with bids to be sought starting April 7 and to be awarded on May 3. Additions would include these classrooms: Meadow Park, eight; Flavian and Carr, four each; and Magruder, three. Flavian also would get a music building.

7. The number of classroom additions to Crenshaw School was upped from six to nine, and Architect Donley was commissioned to make needed additions.

8. A resolution seeking to sell \$500,000 worth of bonds was adopted. It would provide funds for site work on West High School and for additions to Torrance High School.

9. The board accepted additions at 10 schools. These include four classrooms each at Edison, Madrona, Steele, Lincoln, Newton, Arlington and Sepulveda schools; eight at Anza; six classroom and shop and homemaking facilities at Walleria School. All these re-
