

Huge Market To Open In Del Amo Site

One of the largest supermarkets in the world will open soon at Hawthorne and Sepulveda, in the Del Amo shopping center—Southern California's first and only Magic Chef Market.

Now in the final stages of preparation, the market is expected to hold its grand opening in late May, according to the manager, Vincent Michael.

Magic is the word for the new market, said Michael. "Magic Chef is planned almost to do the housewife's shopping for her," he said. "It is probably the most complete market in the country. Not only does it have a huge selection of fine grocery, meat, and produce items, but its own bakery, a sit-down restaurant where you can get anything from a sundae to a roast-beef dinner, and a non-foods section so unusually large and well stocked that the customer will be able to find most of her household and family needs on one trip, from clothing on up and down. For instance, if a child's birthday is coming up, his mother will be able to come in on her regular shopping trip, order a specially decorated cake from the bakery, buy table decorations, gifts, cards, wrappings; get a complete dinner, all prepared, from the service delicatessen—so her family will have a good dinner on the birthday even though she's busy all afternoon with the party—and top off her shopping with a delicious lunch.

If You've Got the Line, Mary Has the Time

This weekend daylight-saving time goes into effect throughout California.

Clocks and watches will be set ahead one hour here at 1 a.m. Sunday.

According to Pacific Telephone manager, Dick Pyle, those needing the correct time after debating whether to move the hands of the clock forward or back, before or after the change, and by whom—may check with the girl from the heart of the molasses and magnolia-blossom country on UL 3-1212.

She is Mary Moore, attractive brunette from Atlanta.

Her voice is on the other end of the line coming from a machine called Audiron. It is checked for split-second accuracy every hour.

Mary states the correct time every 10 seconds, 24 hours a day to Southland telephone users.

On Monday mornings, following the change of time in the spring and fall of the year, adults and children alike all call and check with Mary to see if they're in tune with the community.

Grand Opening Set Tomorrow for Diary of Anne Frank

Warns Against Danger of Ill-Fitting Frames

According to vision authorities, poorly adjusted glasses frames may cause eyestrain and headaches, especially when eyes are used for close work. Ordinary wear or an almost unnoticed blow can twist frames so that even a perfect lens correction cannot provide strain-free vision.

Dr. J. M. Soss, optometrist in the Harbor area for 32 years, invites glasses wearers to drop in at his ground floor offices at 1268 Sartori Ave. and let an experienced optometrist straighten their glasses frames and adjust the nose pieces. The improvement in vision can be substantial and there is absolutely no obligation.

Dr. Soss' complete optical service includes contact lenses, continuous vision lenses, blended lenses (no dividing lines) and artificial eyes. Lenses are ground in his own modern laboratories. The 1268 Sartori Ave. offices are open Friday evenings and all day Saturdays. Phone FA 8-8602. Offices also in Wilmington.
