Explains Amazing Rise in Contact Lens Use

(Advertisement)

According to press reports, new-type contact lenses are taking the country by storm. Dr. J. M. Soss, optometrist at 1268 Sartori for 32 years, points out that this phenomenal surge in popularity is due to the fact that the public is realizing that perfected plastic contact lenses are a safe, economical method of correcting the vision of people in all walks of life. Because of their tiny size and almost weightless construction, modern "contacts" can be worn comfortably for as long as 16 hours at a stretch. Dr. Soss states that those who call at his 1268 Sartori Avenue offices can find out, without obligation, how easy it is to wear contact lenses. No appointment is necessary, and Dr. Soss' offices are open Friday evenings and all day Saturdays. Convenient terms. Phone FA 8-6602. Soss' offices are maintained also in Wilmington.
