Barracuda Tops List for Anglers on Sportfishers

Increase in the number of calico bass and bonito in Redondo Beach waters has been reported by skippers of three Redondo Fisherman's Warf sportfishers in the past week.

Barracuda, however, remain in a strong lead position with yellowtail trailing. Fishermen were averaging five or six fish per trip throughout the week.

Fishing on the 300-foot-long "Sacramento," which is located three miles off shore, and on the shorter "C-Coaster," has, provided anglers with mackerel, sole, barracuda, halibut and yellowtail.

Increased interest in barge fishing, both day and night, was evident during the week with a "Family Day" reduced rate in effect.

Fares were cut in half for adults so both adults and children could spend an entire day or night fishing on barges for \$2 per person.

"Family Days" rates will remain in effect Mondays through Thursdays for the remainder of June, according to Gordon McRae, Redondo Pleasure Fishing chief.

BOATING BULLETINS

By Brownie

Paddingstone Reservoir, near Pomona, has just been opened to water skiers. It is well known to boaters and fishermen but, because of a 5 M.P.H. speed limit, it has not been usable for any fast aquatic sports.

It is hoped that through tight organization the new use can be enjoyed without ruining the admittedly excellent fishing the lake provides. Plans call for marker buoys to delineate a speed boat area for fast craft not pulling skiers, a special ski zone where only boats pulling skiers may operate, and a "buffer zone" around the lake approximately 150 feet wide where a 5 M.P.H. speed limit will be in effect.

It will be up to boaters and skiers to help put the new plan over and maintain peace and friendship with fishermen, who have as much right as anyone else to their own kind of sport. If boaters will keep clear of the buffer zone, treat fishermen with courtesy, and keep far enough away from them not to shake them up, peace and harmony will prevail.

Canadian Champ Favored in Rich Hollywood Derby

Victoria Park, the Canadian-bred champion with earnings of \$168,520 to his credit and galloping victories in two recent starts, heads a strong field that will start in the \$100,000 added Hollywood Derby on Saturday, July 9, at Hollywood Park.

The mile and one-quarter race for three-year-olds is the second of five "hundred granders" to be staged at Hollywood Park before the meeting ends July 25.

Flown here from New York last week after winning the Queen's Plate in Canada by more than seven lengths and beating Tompion by five lengths in the Leonard Richards stakes at Delaware Park, the invader is in a position to bid for American "Three-Year-Old Horse of the Year" honors. He is already being hailed as the finest thoroughbred ever bred in Canada.

The three gems of the Triple Crown—Kentucky Derby, Preakness and Belmont stakes—were all won by different horses, and Victoria Park was prominent in the two he tried. He was third to Venetian Way in the Kentucky Derby and second to Bally Ache in the Preakness.

In the Leonard Richards stakes Victoria Park, who is owned by his breeder, Canadian industrialist E. P. Taylor, set a new Delaware Park track record of 1:47 1-5 for a mile and one-eighth.

The veteran stakes riding king, Eddie Arcaro, has been engaged by Trainer Horatio Luro to fly from New York to handle Victoria Park in the Hollywood Derby. Arcaro had a similar assignment in 1956, when he flew to Hollywood Park to ride Count of Honor to victory in the Hollywood Derby.

More than one in ten patients who have had multiple transfusions have a slight or severe reaction to the white cells in the transfused blood, an American Cancer Society research study has shown. In almost all cases the reaction was found to be preventable.

We feel that all persons reading this column would be interested to know that all funds collected by the Motor Vehicle Department for boat licenses are put in the State General Fund. This means the money can be spent on anything that the State fathers see fit to allocate it for, and they use it for everything except boating facilities. Also, the personal property tax on boats, paid to the County each year, is treated in a like manner. This is unfair, but the condition will continue to exist until the boating public band together and begin to really scream about it. After all, gas taxes go for more and better highways and excise taxes on fishing rods, guns, and ammo go for fish and game propagation and conservation. Shouldn't our taxes go for better boating?

Storm signals are for your information and safety. Learn them and be guided accordingly.

Southland Youngsters Leave for Ranger Camps

Three Woodcraft Ranger camps opened their doors to Southland youngsters this week. Nearly 60 boys and girls began a one-week stay at three Woodcraft Ranger camps.

Scheduled to operate for a nine-week season, Ranger camps will host more than 2000 boys and girls this summer, it was announced by officials of the Chest-sponsored youth organization.

Vacations of from one to three weeks will be offered to boys and girls at non-profit fees ranging from \$22 to \$30 per week. Although registration figures far exceed last year, Ranger officials announce that there are still openings in many of the sessions.
