Roberta Kay Connor, Glen Godfrey Marry

Miss Roberta Kay Connor daughter of Mr. and Mrs. Fred O. Connor, 933 Gastine St., became the bride of Glen L. Godfrey, July 2, at an evening service in Keystone Baptist Church.

The Rev. Hubbard heard the double-ring vows before an altar banked in white gladioli and chrysanthemums.

The benedick is the son of Mrs. Elizabeth Godfrey of Honolulu.

Miss Connor, given in marriage by her father, was gowned in floor-length chantilly lace with a Queen Anne collar. A cascade of white orchids completed her wedding ensemble.

Miss Virginia Partridge was in blue lace and carried white carnations for her role as maid of honor. Bridesmaids Freddie Sue Connor and Norma Hull also wore blue lace and carried pink carnations.

Norman Brand served as best man. Frank Huff and Jim Branon ushered. Joseph Cozzlain was ring bearer.

The mother of the bride was in a pink organza sheath with matching accessories.

Following the ceremony, the couple welcomed guests to a reception in the church

hall. A two-week wedding trip to Hawaii was planned. Upon their return, they will live at 714 Washington Blvd., Alhambra.

Out of town guests at the wedding included Mr. and Mrs. Robert Hook of Clinton, Okla., the bride's aunt and uncle.

The new Mrs. Godfrey was graduated from Narbonne High School in 1959. Her husband attended the University of Hawaii and now is an engineer with Los Angeles County.

Mineral Society Slates Showing

The South Bay Lapidary and Mineral Society will hold its annual show, The Rock Collectors' Round-up Aug. 27 and 28 at Lomita Park Recreational Building, 24410 Eshelman Ave.

In view of the vast success of the 1959 gem and mineral display held by the society, an attendance of more than 5000 spectators is anticipated. Many exhibits planned are being shown at the California Federation show in Eureka this weekend in conjunction with the National Gem and Mineral Show.

More than 250 feet of gem stone material will be shown including Mr. and Mrs. Carl Gustafson's renowned collection of matched geodes and nodules.

Kenny Groger will bring his group of spheres, a ribbon winner in many competitions. Gerald Britt will present his agate cabachons.

Foremost among guest exhibitors will be Harold and Myrl Hodson, showing a fabulous picture mosaic of "Christ in Gethsemane." This picture measures 28 by 45 inches and is complete to the most minute detail.

John and Bula Short will present their mineral collection, possibly the most publicized of its kind in the state.

A fully equipped workshop will be in operation illustrating the many processes of cutting, grinding, shaping, carving, polishing, and faceting of gem quality stones.

American Cancer Society researchers at Brandeis University have developed a battery of delicate techniques which are showing up subtle differences in supposedly identical chemicals in plants, animals, and man.

CONTACTS MEAN MORE DATES FOR YOU!

QUESTIONS AND ANSWERS ON CONTACT LENSES:

- Q. Do contacts really mean more dates for a girl, or for a man?
- A. You look about twice as good to anybody when you take off those disfiguring spectacles. One ex-moose girl now has aquamarine contacts that bring out her skin—and oo-la-la!
- Q. Can contacts take years off a person's age?
- A. Of course—because spectacles are a sign of age, especially bifocals. With no spectacles, you give no older age cue, and we can provide you with bifocal contacts!
- Q. Is it true I can really see more with contact lenses?
- A. Yes, this is a scientific fact—you get a 15% wider field of vision when you are not limited by spectacle frames. This means you can actually see 15% more than you see now.
- Q. Can contacts replace thick glasses?
- A. Tiny beautiful contact lenses are more efficient than the thick disfiguring spectacles used to correct extreme nearsightedness.
